VICTORIA, B. C., TUESDAY, AUGUST 10, 1915

NO. 34

ATTACKS REPULSED BY JOFFRE'S FORCES

In Forest of Le Pretre Germans
Used Shells Contain-
ing Gas

WERE CHECKED BY FRENCH
GUNS; GAINED NO GROUND

Attempts Made North of the
Souchez Railroad Station
Failed

Paris, Aug. 10.—The French war of-
fice this afternoon gave out a report
on the progress of hostilities which
reads as follows:

"In the Artois district, to the north
of the Souchez railroad station, the
Germans last night delivered two at-
tacks in which they made use of
bombs. They were driven back to their
trenches by our fire.

"In the Argonne, in the eastern part
of the forest, last night witnessed a
cannonade and rifle firing, but no in-
fantry engagements. There also was
fighting with bombs and hand grena-
des at Vanuols.

"In the forest of Le Pretre the en-
emy, after a violent bombardment, at-
tacked at about eight o'clock yester-
day our trenches in the vicinity of
La Croix des Carnes, but was checked
by a curtain of fire from the French
troops. During the night a further at-
tack, accompanied by a bombardment
with shells containing asphyxiating
gases, also was checked by our artill-
ery.

"In Lorraine, a reconnaissance made
by the enemy against the station and
the mill at Moncel was repulsed
easily.

"The night passed quietly in the
 Vosges."

A MATTER FOR THE HOME GOVERNMENT

Deputation Saw Borden Re-
garding Embargo on Cattle
From Canada

London, Aug. 10.—Sir Robert Borden
to-day received a deputation which
urged the removal of the embargo on
the importation of Canadian cattle.
Baillie Watson, of Glasgow, Ald.
Stephenson, of Liverpool, and Henry
McCombie, of Aberdeen, asked Sir
Robert to put "under pressure on the
British government to give Canada the
justice she has the right to demand."

The prime minister, replying, allud-
ed to the fact that one speaker had
remarked that the question to some ex-
tent was connected with politics in the
United Kingdom. This would be ap-
parent. The question was not one with
which the overseas dominions had any
right to interfere.

"If we should feel it our duty to make
any representations to the govern-
ment," continued Sir Robert, "you will
appreciate, of course, the necessity
that those representations should be
made direct in the ordinary way and
not by means of any message through
any delegation. Therefore, all I think
I can say at this moment is that so far
as the question concerns the interests
of Canada, we have made representa-
tions in the past, and if it becomes
necessary we will make them again in
the future.

"So far as it concerns the meat sup-
ply of the United Kingdom, it is purely
a question between you and your gov-
ernment. I am sure you will realize
that it is extremely undesirable that
one coming here in a representative
capacity as I do, should make any
suggestion through you to your govern-
ment. We, in Canada, are very jealous
of the self-government entrusted to us
and we hold it entirely as a right, as
you hold your own powers of self-gov-
ernment as a right. We could not de-
part from the principles which govern
our actions in this respect. Therefore,
so far as your interests in the United
Kingdom are concerned, they always
must be matters you must take up
with your own government and in
which I, as a Canadian, could not in-
terfere."

"The deputation thanked Sir Robert
and subsequently was received by Lord
Selborne, president of the board of
agriculture.

JOINT COMMUNICATION HAS BEEN DELIVERED

Paris, Aug. 10.—The correspondent
at Saloniki of the Havas Agency tele-
graphs that the diplomatic representa-
tives of Great Britain, France, Russia
and Italy have delivered a joint com-
munication to the Bulgarian govern-
ment with a view to procuring the
collaboration of that nation with the
allies as part of a common under-
standing with the Balkan states.

Allied Troops Made a Gain of 200 Yards at the Dardanelles

London, Aug. 10.—Troops of the
allies made a gain of 200 yards on
a front of 300 yards to the east of
the Krithia road, on the Gallipoli
peninsula, it is announced offi-
cially here to-day.

A footing also has been obtained
at Chanak Bahr, and another land-
ing effected elsewhere, the state-
ment adds.

LEFT 2,000 DEAD ON BATTLEFIELD

Austrian Troops, Brought From
Poland, Sent Against
Italians at Gorizia

DRIVEN BACK INTO CITY
BY KING VICTOR'S FORCES

Geneva, Aug. 10.—The appearance on
the Italian front of 30,000 Austrian
troops which had been released from
the Russian campaign is announced by
the Tribune in a dispatch from Lai-
bach, Austria.

These troops attacked the Italians
yesterday outside of Gorizia. After a
battle of 15 hours, according to the dis-
patch, the Italians forced the Austrians
leaving 2,000 dead on the battlefield.
The Italians are said to have gained
an important position strategically by
joining forces between Romans and
Dobersdo, south of Gradisch. The Aus-
trians endeavored in vain to prevent
this junction, losing heavily in the
effort.

The bombardment of Rovereto con-
tinues.

WARNING ISSUED BY GOVERNOR LISTER

Tells American Aviators They
Should Not Fly Across Bor-
der Into Canada

Olympia, Wash., Aug. 10.—Continued
violation of the Canadian order im-
posing a ban on flying over Canada led
United States flying over Canada led
Governor Lister to issue a new warning
to-day.

Secretary of State Robert Lansing
has written the governor that the
British ambassador, Sir Cecil Spring-
Rice, has made new complaints in which
he says: "Troops of the Dominion are
under arms and there is danger of a re-
peatable incident if the practice of fly-
ing across the border continues."

The success won by Sir John
French's forces near Hooge is com-
mented upon by the press. It is felt
here that the British again have shown
their mettle in a way calculated to im-
press their adversaries deeply with the
difficulty of any attempt to inagurate
upon the western front a drive in any
way comparable with the operations in
the east.

CANADIAN NIGHT AT SAN FRANCISCO FAIR

San Francisco, Aug. 10.—"Canadian
night" will be celebrated here to-night
by the British-American league. A
good programme is promised. The
speakers will be Sir Philip Herbert,
lately arrived from England; Walter
Stenning, manager of the British sec-
tion at the exposition, and Attorney
Henry Hutton. Mr. Hutton will speak
on "The British Blockade."

Lady Herbert is visiting this coun-
try in the interests of relief com-
mittees now working for the benefit of
wounded soldiers and sailors in Eu-
rope.

THIRTEEN STICKS OF DYNAMITE WERE FOUND

Bellingham, Wash., Aug. 10.—Thir-
teen sticks of dynamite to which a long
fuse was attached were found to-day
concealed in the wharf of the fish can-
nery of J. E. Smiley & Company, of
Blaine. The explosive was placed near
the cannery bunkhouse, where twenty-
five Japanese sleep. Sheriff Wilson
Stewart left to-day to investigate the
incident, which he believed to be con-
nected with anti-Japanese agitation at
Blaine. Two weeks ago the water main
was blown up and a placard was post-
ed near the scene bearing the warning
that if the Japanese at canneries were
not discharged "something worse"
would happen.

RELEASED BY GERMANS.

Washington, Aug. 10.—The American
steamship Llama, one of two Stan-
dard Oil ships taken by German sub-
marines to Swinemunde, was released
August 6, according to a dispatch to
the state department to-day from Am-
bassador Gerard at Berlin. The dis-
patch does not say whether the Llama's
cargo of petroleum was detained and
makes no mention of the steamship
Wico, taken with her.

ITALY WILL MOVE AGAINST TURKEY

Italian Consuls Are Preparing
to Leave the Otto-
man Empire

EXPECTED ARMY WILL BE
SENT TO DARDANELLES

Believed Balkan States Will
Have Decided by End
of Week

Athens, Aug. 10.—Foreboding a
declaration of war upon Turkey by
Italy and the dispatch of an expedi-
tionary force to the Dardanelles, Con-
stantinople dispatched to-day state
that Italian consuls in Turkey have
turned over their affairs to the consuls
of neutral nations, chiefly those of the
United States, and are preparing to
leave the country.

Paris, Aug. 10.—The Rome corre-
spondent of the Petit Journal to-day
quotes an Italian cabinet officer as
follows:
"As soon as the attitude of the Bal-
kan nations has been determined defi-
nitely, Italy will take radical steps
against Turkey."

London, Aug. 10.—The apparent im-
minence of Italy's active participation
in the campaign of the allies to force
the Dardanelles and reduce the Turks
to a state of submission to-day tem-
porarily usurped the interest of mili-
tary critics in the Russian situation.

Since the fall of Warsaw and Ivan-
gorod, no alarming reports regarding
the position of Grand Duke Nicholas' forces have been forthcoming from
either Berlin or Petrograd, and in the
absence of these, British critics were
inclined to-day to believe that the
situation has settled down to give and
take tactics, in which the Russians by
no means are getting the worst of it.
Grand Duke Nicholas' main army is
believed to be safe and the reports of
the failure of the German invaders to
make progress against Riga, on the
Baltic Sea, counterbalance minor Ger-
man successes and advances further
south.

Kovno and Nhv's Georgievsk still
hold out.

The outcome of the preparations
Italy is reported to be making to take
an active part in the allies' campaign
against Turkey is awaited with great
interest, and definite announcement
that she has thrown aside all disinclina-
tion to consider Germany and Turkey
as active enemies will be received in
London with great acclaim.

The negotiations with the Balkan
states have reached a point where
slight weight will turn the scale and
definitely place Bulgaria, Roumania
and Greece upon the side of the allies.
In fact, decisive action by Italy
against Turkey is delayed, according
to report, only by a desire to see the
Balkan situation settled. It is believed
here that the end of the week will find
that some settlement has been made.

The success won by Sir John
French's forces near Hooge is com-
mented upon by the press. It is felt
here that the British again have shown
their mettle in a way calculated to im-
press their adversaries deeply with the
difficulty of any attempt to inagurate
upon the western front a drive in any
way comparable with the operations in
the east.

ROBBERS BLEW SAFE AND ESCAPED WITH \$3,000

Maple Hill, Kas., Aug. 10.—Seven
robbers held more than one hundred
citizens at bay early to-day while
compartments blew the safe of the
Maple Hill State Bank and escaped
with \$3,000.

An explosion in the bank building
aroused citizens, many of whom came
into the streets half clad. Armed men
forced them into the shadows of ad-
joining buildings until six more charges
of the explosive had been fired. When
the vault had been forced, the men
inside the bank signalled and the band
disappeared. A fog prevented the citi-
zens giving an adequate description of
the robbers.

TWO WERE MURDERED BY GERMAN PIRATES

Amsterdam, Aug. 10.—The British
trawler Westminister, was torpedoed
and sunk by a German submarine in
the North Sea to-day. The crew was
saved.

London, Aug. 10.—The British trawler
Benardo was torpedoed and sunk by a
German submarine to-day. Two of the
crew were drowned.

HEAVY CROPS.

Berne, Switzerland, Aug. 10.—The
crops in Russia this season will be
extraordinarily large, according to ad-
vices received here to-day. The harvest
around Moscow will be fully 30 per
cent larger than last year.

WHERE GRAND DUKE NICHOLAS IS DEVELOPING HIS PLAN OF CAMPAIGN

The above map shows Vilna (Wilna) which the Russian military authorities have ordered evacuated. The reader may trace the Kovno-Grodno-Brest Litovsk line. In the order that Vilna be evacuated military observers see an indication that it is part of Grand Duke Nicholas' plan to withdraw from the Kovno-Grodno-Brest Litovsk line farther into the interior of Russia.

GERMANS FORCED TO PAY GREAT PRICE

Lost 65,000 Men in the Oper-
ations Northeast of
Warsaw

Petrograd, Aug. 10.—General von
Buclov's attempt to reduce the Rus-
sian fortifications at Kovno has set-
tled down to a virtual siege, according
to to-day's bulletin from the Russian
war office. Artillery duels, interspersed
with attempts at storming, all of
which have been repulsed by the de-
fenders with heavy loss to the storm-
ing parties, mark the progress of the
battle.

Another Zepplin dropped 12 explo-
sive bombs and five incendiary bombs
at Bialystok, killing a woman and in-
juring a child.

North of the Lublin-Chelm railroad
the battle continues. In the region of
Nowo Alexandria, on the Vistula,
south of Ivangorod, the Russians are
offering fierce resistance, inflicting
heavy losses on their opponents.

London, Aug. 10.—Official reports
forwarded from Petrograd by Reuters
Agency show that recently upwards
of 200,000 prisoners were being employ-
ed by various Russian ministries on
railroads, in agriculture and in other
ways.

Petrograd, Aug. 10.—A Zepplin air-
ship bombarded the railroad station at
Kovno, Poland, on Monday, but inflic-
ted only minor damage.

REGISTRATION IN NEW ZEALAND SOON

Wellington, N. Z., Aug. 10.—The gov-
ernment to-day was preparing a na-
tional registration bill similar to the
measure now in force in Great Britain.

TURKISH ALLEGATION.

Constantinople, Aug. 10.—An enemy
submarine was sunk near Balair this
afternoon by a Turkish aeroplane
which threw bombs upon the craft. All
the members of the crew were lost.

WARD III. LIBERALS.

A special meeting of Ward III.
Liberal association will be held
in the Liberal rooms, Jeune
block, Cormorant street, on
Thursday evening, at 8 o'clock.
The city candidates will address
the meeting.

RAID LAST NIGHT; ZEPPELIN DESTROYED

Hung Visited Coast of England;
Fourteen Persons Were
Killed

DESTRUCTION OF AIRSHIP COMPLETED AT OSTEND

London, Aug. 10.—An attack by Ger-
man airships which flew over the coast
of England last night, was announced
to-day by the official press bureau.
The statement says that one of the air-
ships was damaged by British aero-
planes and was towed into Ostend.

According to the official announce-
ment nine women, four children and
one man were killed; and ten women,
five men and two children were wound-
ed as the result of the explosion of
missiles dropped by the Zeppelins.

The text of the statement follows:—
"A squadron of hostile airships vis-
ited the east coast last night and this
morning, between the hours of 8.30 p.
m. and 12.30 a. m.

"Some fires were caused by the
dropping of incendiary bombs, but
these were extinguished quickly, and
only immaterial damage was done.

"The following casualties have been
reported: Killed—One man, nine wo-
men and four children; wounded—five
men, ten women and two children.

"One Zeppelin was damaged serious-
ly by the gunfire of the land defenses
and was reported this morning being
towed into Ostend. She has been sub-
jected since to continual attacks by
aircraft from Dunkirk and has been
under heavy fire and it is reported now
that her rear compartments damaged, and
she was completely destroyed by the ex-
plosions.

"The night was extremely dark and
there was thick fog in places which
rendered night flying by aeroplanes
very difficult.

"It is regretted that Flight Sub-
Lieut. R. Lord, who was one of the two
pilots sent up to engage the enemy,
was killed on landing in the dark."

COUNT OKUMA ISSUED A STATEMENT TO-DAY

Tokio, Aug. 10.—Takaaki Kato, who
was foreign minister in the cabinet
which retired last month, was appoint-
ed by the emperor to-day a member of
the House of Peers.

Count Okuma, the prime minister,
issued a statement to-day explaining
his decision to remain at the head of
the government. The count said his
decision was due to representations
from the emperor that conditions at
home and abroad were such as to make
indispensable a change in the premier-
ship.

WOUNDED BY EXPLOSION.

London, Aug. 10.—Captain Percy
Archer Clive, member of parliament
for one of the divisions of Hereford-
shire, has been wounded seriously in
Flanders by the explosion of a German
mine.

NO SUPPLIES WILL BE LEFT IN VILNA

City Being Stripped of Every-
thing That Might Be of
Value to Enemy

ORDERS GIVEN THAT
PLACE BE EVACUATED

An Indication as to Plan of
Campaign Russians
Are Following

Petrograd, Aug. 10.—The first indi-
cation that the Russian plan of cam-
paign contemplates the abandonment
of the Kovno-Grodno-Brest Litovsk
line of defense and withdrawal into the
interior was given here to-day when
the war office announced that Vilna,
capital of the province of the same
name, had been ordered evacuated.

Libraries, museums, etc., are being
removed, and the city of 200,000 people,
which is situated 55 miles southeast of
Kovno and 225 miles northeast of
Warsaw, will be stripped of everything
calculated to be of value to the enemy.

The announcement caused great in-
terest. It was considered probable that
Vilna, lying as it does on the Warsaw-
Petrograd railroad, would be evacuated
if the Russians intended holding the
fortresses at Kovno and Grodno, the
chief defenses of Vilna.

London, Aug. 10.—A dispatch to
Reuters News Agency from Petrograd
says that the first steps for the evacu-
ation of Vilna (about 55 miles south-
east of Kovno) have been taken by the
removal of some of the public institu-
tions.

"The railroad from Vilna southward,"
the dispatch says, "has been the object
of active attention by German Zeppe-
lins. Twelve bombs, five of which
were incendiary, were dropped on
Bialystok, while a simultaneous visit
was paid to the Kovno railroad depot.
The damage was slight and traffic was
not interrupted."

LIST GIVEN OUT AT THE CAPITAL TO-DAY

Pte. T. A. Clarke, of Nanaimo,
Reported Dead; Three
Killed in Action

Ottawa, Aug. 10.—The following casu-
alty list was issued to-day:
First Battalion—Wounded and miss-
ing: Pte. Stanley Gibbard, Utterton,
Muskoika, Ont.

Fourth Battalion—Wounded: Pte. J.
Y. Tobtham, Eaglewood, Ont.

Seventh Battalion—Dead, according
to the German list: Pte. Thomas
Allen Clarke, Nanaimo, B. C.

Missing and wounded: Pte. Alexan-
der McIntyre, Patricia, B. C.

Tenth Battalion—Killed in action:
Pte. Alexander McNab, Dundee, Scot-
land; Pte. James Reynolds, London,
Eng.; Pte. Ernest F. Lowers, King-
ston, Ireland.

Prisoner of war—Pte. Robert White,
Fourteenth Battalion—Unofficially
reported prisoner of war: Pte. William
Patrick Connors, Montreal.

Fifteenth Battalion—According to
German list, died July 17: Pte. John
Joseph Flanagan, East Toronto.

Wounded—Pte. Wallace Watson,
Lachine, Que.

Lord Strathcona's Horse—Wounded:
Pte. E. Thaler, Hespeler, Ont.

Princess Pat's—Unofficially reported
prisoner of war at Giessen: Pte. Chas.
Walker, Toronto.

GERMANS SAY AUXILIARY CRUISER WAS TORPEDOED

Berlin, Aug. 10.—It is claimed in an
official statement issued here that the
British auxiliary cruiser India, of 7,800
tons, was torpedoed off the Swedish
coast. Eighty members of the crew
were saved, according to the communi-
cation.

ADMIT ALLIES HAVE LANDED AT NEW POINT

Constantinople, Aug. 10.—Admission
that an Anglo-French force had ef-
fected a new landing near Karachall,
on the Gulf of Saros, in Turkey, north
of the Gallipoli peninsula, was made
here to-day.

WHAT THE GOVERNMENT OF BULGARIA DESIRES

London, Aug. 10.—Bulgaria will join
the Entente powers if Serbia will cede
to Bulgaria that part of Macedonia
now under Serbian rule, according to
news agency dispatches from Rome to-
day.

ATTEMPT ON RIGA HAS BEEN CHECKED

German Forces Are Not Ad-
vancing Towards the
Baltic Port

THE SITUATION IN
THE BALKAN STATES

Reported Enemy Has Concen-
trated 100,000 Soldiers
Near Orzova, Hungary

London, Aug. 10.—Although the mili-
tary operations in the Russian province
of Courland hardly have reached the
decisive stage, the Germans who have
been fighting their way toward Riga
have been checked. Almost simultane-
ously German warships which at-
tempted to seize the Gulf of Riga and
attain a strategic position to assist the
troops ashore were dispelled, several
of them being damaged.

The German fleet moved its way to-
wards Riga much after the manner in
which the British ships ranged off the
Belgian coast last fall. The fact that
the German warships were forced to
retire is a source of great satisfaction
to the British press, which finds en-
couragement in the resistance of the
Russians in this northeastern theatre
in contrast to their retirement else-
where.

The British advance in the vicinity
of Hooge, while not comparable with
the tremendous actions in Poland,
marked the most important engage-
ment in which the British army has
figured since the battle of Festubert
in May.

The Balkan situation still is chaotic.
Dispatches from Saloniki say that the
Austro-German plan to strike again
at Serbia already has found expression
in a concentration of Teutonic forces
along the Serbian frontier. It is said
100,000 men have been massed near
Orzova, Hungary, which may be the
forerunner of the predicted attempt to
fight through Serbia to the relief of
Turkey. Italy, as yet has not declared
war on Turkey, but Athens reports
that Italian consuls are leaving the
Ottoman empire, entrusting their af-
fairs to their American colleagues. If
this be true, it probably means that
impending developments in the Bal-
kans dictated the action of Italy.

It has been rumored frequently that
Italy would send troops to assist
France and Britain in the operations on
the Gallipoli peninsula, but thus far
such reports have not been borne out,
and Rome and the Porte maintain sur-
face relations, with the two nations
at peace.

For Germany's reported peace over-
tures to Russia the British press finds
only sarcasm. Virtually all papers re-
iterate editorially what officials have
insisted upon so often—that there can
be no peace until the allies have gained
victory. It is believed generally in the
British Isles that Germany is willing
to conclude peace as matters stand,
but the burden of all written and
spoken comment is that such a situ-
ation would be impossible from the
standpoint of the allies.

MUCH GOLD SENT TO THE UNITED STATES

Shipped From England to Hal-
ifax and From There to
New York

New York, Aug. 10.—Considerable
mystery surrounds the shipment from
England to this country of a large
amount of gold, the sum being esti-
mated variously at \$15,000,000 to \$25,
000,000. The gold is being transhipped
from Halifax, to which port it was
taken by a British steamship, presuma-
bly under government convoy, to this
city by special train.

J. P. Morgan & Company are the
consignees, but the bankers refuse to
give any information regarding the
transaction, stating that such details
ought to come from London, where the
shipment was arranged in response to
the extraordinary exchange conditions
between that centre and this city.

Demand sterling suffered further de-
preciation at the opening of to-day's
foreign exchange market, declining to
\$4.75, but later advanced to \$4.76.

BATTLESHIPS MAY BE SENT TO VERA CRUZ

Cornish, N. H., Aug. 10.—President
Wilson was in communication to-day
with Secretary Lansing regarding a
request from Commander McNamee
that a battleship squadron be sent to
Vera Cruz to protect Americans, and
was understood to be inclined to grant
the request.

We Are Prompt, Careful, and Use Only the Best in Our Work

FREE for the Boys at the Front BRING US YOUR OLD RAZORS

Never mind how old; bring them here.
Many of the razor factories in the Old Land have been turned into ammunition factories, causing a shortage of razors at the front.
We send the old razors away, where they are ground and put in shape for use, and sent to the front FREE.

BRITISH FORCES MADE GAIN NEAR HOOGUE

Recaptured Trenches and
Made Further Progress,
States Sir John French

London, Aug. 10.—Sir John French, commander-in-chief of the British forces in France and Belgium, sent the following report yesterday:

"Since my communication of August 1 the artillery on both sides has been active north and east of Ypres. In these exchanges the advantage has been with us."
"This morning after a successful artillery bombardment in which the French on our left co-operated effectively, we attacked the trenches at Hooge, captured by the enemy on July 20. These were all retaken and, following up this success, we made further progress north and west of Hooge, extending the front of the trenches captured 1,200 yards."
"During this fighting our artillery shelled a German train at Langemark (five miles northeast of Ypres), derailing and setting fire to five trucks."
"The captures amounted to three officers and 124 men of other ranks, and two machine guns."

CARRY TREES ON THEIR BACKS; PAINT THEMSELVES

Athens, Aug. 10.—Reference to the methods followed by Turkish snipers on the Gallipoli peninsula in concealing themselves from the British sharpshooters is made in a series of letters received here from a British officer:

"The Turkish snipers," he says, "frequently place small trees on their backs and so crawl up almost to the trenches. Yesterday I watched a bush which appeared to be shaking a lot, despite the fact that there was no wind. I fired into it a couple of times with my rifle. It moved quickly enough then."
"Some of the Turks paint themselves and their rifles with a splashy green and are then practically invisible among the bushes. Snipers operating in sandy or muddy soil dash themselves from head to foot with mud. Among the bare rocks they are like chameleons, half green and half a dull brown, like a piece of sun-dried moss."

SAARBRUCKEN WAS VISITED BY AIRMEN

164 Shells Dropped on Town
Northeast of Metz;
Fires Started

Paris, Aug. 10.—The following official communication was issued last night: "The day has been comparatively quiet on the whole front. In Artois, between the Somme and the Oise, and in the valley of the Aisne, some artillery fighting has been reported, and Rheims has been bombarded again."
"In the Argonne, near Fontenoy-Charmes, the enemy attempted to capture our positions, but was repulsed everywhere."
"In the Vosges there was only artillery firing. This morning an air squadron, consisting of 32 bombing aeroplanes, conveyed by some speed planes, sailed forth to bombard the station and factories of Saarbrücken (northeast of Metz). The weather conditions were favorable, the valleys being concealed under fog and the sky cloudy."
"Notwithstanding the difficulties attending the proper steering of the aircraft, 28 aeroplanes reached their goal and dropped 164 shells of varied calibre. The speed planes meanwhile were keeping away German aviators who were attempting to cut off the squadron from its destination. Many fires were observed in the territory shelled."

DEEDS OF CANADIANS WILL LIVE ON CANVAS

Carton Moore-Park is Completing Three Great Pictures
at New York

New York, Aug. 10.—The first paintings of considerable importance of scenes in the great war, and certainly the first that will be seen in this country, are in process of completion just now by Carton Moore-Park, of London, Eng., in his Washington Square studio in this city.

They deal with incidents in the two great engagements about Ypres. There are three large canvases, one of them a gift by the painter to the patriotic fund of Canada. This painting later in the year will be offered for sale by public subscription or auction in Canada.

The three canvases depict scenes of stirring dramatic action and are designed to preserve pictorially the heroism of the Dominion's sons in the most terrible of all wars.

In the first and largest Mr. Moore-Park has selected for his motif what is perhaps the most thrilling and dramatic episode so far narrated of the war. It deals with the "Remnant," the small band of survivors of Princess Patricia's Light Infantry, "the bravest of the brave."

After twenty-four hours of continuous fighting on May 4, in one of the most terrific engagements, 150 men and some stretcher-bearers were all that were left to answer the roll call at midnight. Then, relieved by the King's Royal Rifles—all of the commanding and junior officers had been slain but two—the "Remnant," assisted by a unit from the relieving party, buried the dead where they lay as best they could. The moment depicted is from an account given by Sir Max Aitken, the Canadian record officer, written from field headquarters, as follows:

"Behind the smashed trenches, by the light of the German flares and amid the incessant rattle of musketry, reliever and survivor combined in the last service which one soldier can render another."
"Beside the open graves, with heads uncovered, all that was left of the regiment stood while Lieutenant Niven, holding the colors of the Princess Patricia's, sang, 'God Save the King.' In fact, tightly in his hand, said all he could recollect of the Church of England service for the burial of the dead. Long after the prayer was over the remnant stood in solemn dignity, unable, it seemed, to leave their comrades, until the colonel of the Third King's Royal Rifle Corps gave them peremptory orders to retire."

"Alone of all great pictures of the tragedy of war, Lady Baker's 'Thin Red Line' stands in memory to compare in the least degree with this tragic picture of this incident and its great pathos."

The glory of the sons of the empire stands in this scene a monument for all time.
One of the other canvases deals with a Victoria Cross episode. It is the action of Corporal Fisher of the 13th Highland Battalion, of Montreal, who, at Ypres, in a moment of great peril, the defending troops, with a machine gun and aided by two companions, covered the retreat of a battery of heavy guns and saved the situation, dying at that moment. Lieutenant Fisher was a boy of nineteen and a graduate of McGill university. The painting is a tribute to the spirit of the sons of Canada.

The third canvas, one that should make a wide popular appeal in reproduction, depicts "The Last Cartridge," a company of the Princess Patricia's Regiment fighting to the last man under a deadly fire at Langemark.

Amsterdam, Aug. 10.—The story of the German cruiser Emden is being told to audiences in the principal German cities in a lecture by Lieutenant von Mücke.

Phoenix Stout, \$1.50 per doz. quart.

ITALIAN GUNNERS FIRE THROUGH CLOUDS

Artillerymen Near Stelvio Pass
Have Exact Range of Austrian Positions

Geneva, Aug. 10.—Swiss soldiers and guides bring some picturesque details of the fighting between Italy and Austria in the Alps around Stelvio Pass, nine thousand feet high, and the neighboring heights overlooking the Valte-line valley.

Stelvio Pass is an important back-door entrance into Italy, leading to Milan. It was fortified strongly by the Austrians and manned by a large body of mountain artillery. The Italians similarly fortified other passes nearby, and there are daily artillery duels, while at night the whole district is swept by searchlights. Swiss soldiers on sentry duty a few miles away keep constant watch over the scene. Near the point where the Swiss, Italian and Austrian frontiers meet there are several villages where the inhabitants all speak a half dozen languages and dialects.

The principal pass was buried under two feet of snow when war began between Italy and Austria, but the Austrian Alpini cleared a path to the summit. Recently fighting has been taking place above the clouds, which cut off both sides from view of their bases and supporting artillery below, so that they have to depend for orders and instructions on the field telephone.

The Italian batteries on the lower ridges obtained the exact range of the summit of the pass after a few experiments, and they keep up a continual cannonade, firing through the clouds, of course, without seeing the result of their shots.

The Red Cross workers on both sides experience the greatest difficulty in reaching the wounded at isolated places in the upper ranges. The nurses in this district must qualify as skilled Alpini.

BUILT CONCRETE GUN FOUNDATIONS IN FRANCE

Paris, Aug. 10.—The court-martial of the 15th military region of France soon will try Hermann Hoche, of Hamburg, director of the Union Sulphur Co. for espionage in France. It is the first case in which the public has been furnished with precise details of the German military preparations in France before the war.

Hoche, who will be tried by default, having fled France fourteen days before Germany declared war, is charged with having built concrete gun foundations in his works in France, and with having constructed along an important line of railroad, installations calculated to facilitate a coupé by enemies of France. The war was prevented by the minute precautions taken by the French military authorities as soon as the mobilization was foreseen.

OBSERVATIONS WILL CONTINUE FOR YEAR

London, Aug. 10.—Notwithstanding the preoccupations of war, the government has undertaken, through the National Physical Laboratory, to make an investigation of the cracks in the buildings of the Tower of London, some of which are feared to have appeared during the past year or two.

Cracks suitable for observation have been chosen in the walls of the chapel and four of the larger towers, and a set of special micrometers, has been put in place in each crack. Observations will be made weekly for a period of twelve months.

EXCLUSION OF TOYS.

London, Aug. 10.—The exclusion of German toys is what it is hoped a movement started by the Countess of Suffolk will accomplish. In Great Britain, but the movement is not along an industrial one aimed against Germany, but an effort to provide a trade at which maimed soldiers can work when the war is over. Heretofore, Great Britain has bought about \$7,500,000 worth of foreign toys, which have been almost all of German make. The scheme provides for the financing of the industry by 4 per cent. loans. Surplus profits will be spent in developing the technical side of the business. Needy artists will be given work as designers.

GERMANY'S LOSSES.

London, Aug. 10.—German losses today total 2,178,683, according to the Bernes correspondent of the Morning Post. The latest casualty list gives the total of Prussian losses at 1,661,569, and the losses of the Bavarian, Saxon and Wurttemberg troops as 517,114.

ADVANCES WERE MADE AT SEVERAL POINTS

Rome, Aug. 10.—The following statement was issued last night at the headquarters of the Italian general staff:

"On the Upper Comelico (Cadore) our troops established themselves solidly on Cimo Ondici."

"In Carnia, one of our detachments defending Cavallo pass, between Freikofel and Val Grande, attacked the Austrian trenches opposite on the morning of the 7th and drove out the occupants."

"At nightfall the enemy in force attempted to recover this position, but was repulsed with heavy losses."

"In the Flava zone four troops occupied some enemy entrenchments near Zakara and Paljano, taking a quantity of ammunition, hand grenades and trenches."

"On the Carso plateau the action continues to develop favorably for us. Yesterday the enemy again began to throw bombs on the Montefalcone side, causing a fresh outbreak of fire, which was mastered rapidly by our valiant troops, although they were shelled continuously by the enemy's artillery."

SIR ROBERT BORDEN HONORED AT BRISTOL

London, Aug. 10.—In thanking the citizens of Bristol yesterday for granting him the freedom of the city, Sir Robert Borden said he appreciated especially the honor to himself in having his name included with such illustrious freemen as the Duke of Wellington, Lord Nelson, Lord Howe and Lord Rodney. The coming together of men from the various parts of the empire and their comradeship in France and the Dardanelles would tend to a still greater imperial unity.

"I know I take from you," said Sir Robert in conclusion, "an expression of strong determination that the struggle never will cease until it is brought to an honorable and triumphant issue. Canada has been united with you in that great purpose since the outbreak of the war and will be united with you to the end."

MEDICAL INSPECTION OF GREAT IMPORTANCE

Sheffield, England, Aug. 10.—The chief medical officer of the government board of education has notified the Sheffield school authorities that the government regards the medical inspection and supervision of older schoolboys as a matter of supreme national concern. In the event of a long war, he points out, boys who now are about fourteen years old may become the source from which recruits for the army will be drawn. Their physical well-being therefore is of utmost importance.

It had been proposed to discontinue the school medical inspection here for the duration of the war, owing to the shortage of physicians.

Mistress: "Good gracious, Susan, the house is on fire?" Susan (overworked): "Well, mum, it's comfortin' to think that at last there's a fire in the 'ouse I 'avent 'ad to light!"

TURKS PUT TO ROUT BY RUSSIAN FORCES

Petrograd, Aug. 10.—The following communication concerning the fighting in the Caucasus was made public last night by the war office:

"In the Caucasus in the direction of the Euphrates, our cavalry charged the Turks and sabred many of them; and captured eight officers and 300 men and a convoy carrying a herd of cattle, a telegraphic station and munitions, arms and provisions. Our forces are pursuing the Turks without cessation."

"On Saturday and Sunday fighting developed along the whole of the front of the River Tortum, to the Euphrates. We attacked the Carladag ridge, and occupied a position of the north double pass of Merghemir."

EARLY CLOSING IS THE RULE IN EGYPT

Cairo, Aug. 10.—Early closing is the rule in Egypt and follows the prohibition of the sale of absinthe. In Cairo, Alexandria, along the canal at Suez and elsewhere within a radius of five miles of any military camp, the sale of alcoholic liquors of any sort is stopped at 10 o'clock at night and is not allowed to begin until the following morning. Ten o'clock closing also is compulsory in these districts for all cafes, restaurants and theatres.

GEORGE FITCH DEAD AT BERKELEY, CAL.

Berkeley, Cal., Aug. 10.—George Fitch, the author, died at a sanatorium here yesterday, having failed to rally from an operation for appendicitis performed on Sunday. Mr. Fitch was visiting his sister, Miss R. Louise Fitch, who is a student at the University of California.

Nervous, sick headaches tell of exhausted nerves, and warn you of approaching prostration or paralysis. By enriching the blood Dr. Chase's Nerve Food restores the wasted nerve cells and thoroughly cures headaches, sleeplessness and other nervous disorders.

CRUISER AND TWO DESTROYERS DAMAGED

German Fleet Made Fruitless
Attack at Entrance to
Gulf of Riga

Petrograd, Aug. 10.—The following
official communication was issued last
night:

"A German fleet of nine battleships
and twelve cruisers, with a large num-
ber of torpedo boat destroyers, peris-
tently attacked the entrance to the
Gulf of Riga on Sunday, but every-
where was repulsed. Our seaplanes,
throwing bombs, contributed to our
success. A cruiser and two torpedo boat
destroyers of the enemy were damaged
by our mines."

An official explanation of the attack
of the German fleet on Riga was given
out last night as follows:

"The Gulf of Riga would allow the
Germans to give powerful aid to their
army now occupying the western coast
of the gulf. With the object of pen-
etrating the gulf, the fleet appeared on
Sunday off Dirben channel, which is
the only practicable passage for large
ships to enter. The enemy made three
attacks with the object of breaching
the mine barrier protected by our fleet.
Four seaplanes and warships op-
erated to repel the enemy. The Ger-
mans did not succeed in passing our
defences. Three of his ships were dam-
aged by mines near Dirben. None of
our ships were lost."

London, Aug. 10.—Although the Rus-
sian official communication telling of
the repulse of a German naval attack
on the Gulf of Riga arrived in London
too late for comment by them, all the
morning papers lay emphasis on what
they assert is Russia's improved situ-
ation in the Riga district. The Russian
position throughout the Baltic pro-
vince is described by the newspapers
as firm.

"The Russians," says the Morning
Post's Petrograd correspondent, "are
forcing a vigorous aggressive policy,
and the Germans have been swept
clear from the Riga region."

In a dispatch dealing in a similar
manner with the Riga sector, the
Times' Petrograd correspondent says:
"The Riga position has been relieved
by Russian successes south of the
town, and the whole region for 25 miles
from Riga has been cleared of the
enemy."

INCREASE IN JUTE TRADE.

Calcutta, Aug. 10.—War has brought
great prosperity to the jute trade,
mainly on account of the great de-
mand for bags. In May alone Calcutta
sent to the United Kingdom 13,999,000
bags, half as many as in a full year
of peace, and to Russia 4,599,000. South
America and the United States also
have been very large customers. In
the last completed year, during two-
thirds of which war was being waged,
the United States took 72,000,000 bags,
valued at over \$5,000,000, and two-
thirds of Bengal's output of yarn.

INCREASE GRANTED.

Gary, Ind., Aug. 10.—Employees of
the Aetna Chemical Company and the
Aetna Explosives Company, of New
York, which companies operate sev-
eral plants in the middle west, have
been granted wage increases of fifty
per cent. It was announced to-day.
The employees will be granted a fur-
ther increase of fifty per cent. if the
European war lasts beyond December
of this year. It was promised.

FOUND DEAD.

San Francisco, Aug. 10.—S. W.
Hatch, manager of the McCall Pattern
Company here, was found dead to-day
at his desk by an office boy. On the
floor beside him was a revolver with
one chamber empty. There was a bul-
let hole in his head. D. Griffith, man-
ager of the Chicago office of the com-
pany, had an appointment with Hatch
to-day.

LOST MANY MEN IN ATTACK ON KOVNO

Germans Made Desperate Ef-
fort; Report Issued at
Petrograd

Petrograd, Aug. 10.—The war office
made public the following communica-
tion last night:

"South of the Dvina on Sunday our
troops pressed the enemy in the direc-
tion of Frederikstad (southeast of
Riga), and in the sector above
Schoenberg, south of Frederikstad. In
the district northeast of Vilkomer
(northeast of Kovno) the German ad-
vance guards were dislodged, sustain-
ing heavy losses."

"On Sunday night the enemy re-
newed his attacks on the fortifications
of Kovno. Our positions during the
course of the day underwent an in-
tense artillery bombardment by the
enemy, and his attacks against our ad-
vanced positions were of an extremely
desperate character. According to the
latest reports received, the German as-
sault against the western front of
Kovno last night was repulsed every-
where with enormous losses to them.
Our artillery responded energetically
to the enemy's fire."

"Near Osovoetz and in the region of
Medvino there has been violent firing.
On the left bank of the Narew on
Sunday there was isolated fighting,
particularly in the direction of Lomza,
the section north of Lomza and the
Ostrow road."

"In the other regions and on the
right bank of the Middle Vistula there
have been no important actions."
"On the roads to Vlodava as well as
on the Bug, the Zlota Lipa and
Dniester rivers, the situation is un-
changed."

Vienna, Aug. 10.—The following of-
ficial statement was issued yesterday:

"The enemy, who retreated from the
Vistula, is being pursued. Austro-Hun-
garian and German forces yesterday
crossed the main road from Warsaw
to Lukow and an easterly direction
between the railway from Ivangoz
to Lukow and the village of Garwolin.
The left bank of the Wieprz and the
right bank of the Vistula, near Ivangoz,
having been cleared of the enemy, our
troops crossed the Wieprz in a
northeast and northerly direction."

"The battlefields of Lubartow and
Miechow showed traces of the enemy's
hasty flight. The number of prisoners
captured by the army of the Arch-
duke Joseph Ferdinand has been in-
creased to 5,000."

"Between the Wieprz and the Bug
the battle continues."

"On the Dniester, up to Uscieczko
(near the Bukowing frontier) our
troops repulsed the Russians at several
points, capturing 1,500 men and five
machine guns."

BELIEVED IT WILL SAVE THOUSANDS OF LIVES

Paris, Aug. 10.—What are described
as remarkable cures of wounded
French soldiers have been effected by
the new polyvalent serum, discovery
of which was announced last March.
Complete recovery is announced of men
who were mutilated terribly and for
whom all hope had been given up.
Dr. Lefrançois and Dr. Vallee, the
discoverers of the serum, have been
unable up to the present time to make
more than 2,000 flasks of it daily,
most of which goes where the worst
cases are to be found. When it can be
made in sufficient quantities to supply
the firing line, where it could be used
as a preventative, as anti-tetanus
serum is used now, it is believed that
thousands of lives can be saved.

The new serum, which may be de-
scribed roughly as a combination of a
number of serums against different
varieties of bacteria, has been put to
practical use only recently.

SERVING THE EMPIRE.

London, Aug. 10.—A khaki-clad vol-
ume issued by the London stock ex-
change shows the number of members
and clerks on active or auxiliary war
service. The totals are approximately
as follows: Members on active ser-
vice, 963; miscellaneous service, 74.
Clerks on active service, 1,125; mis-
cellaneous service, 25.

The total number of members and
clerks at the end of the last financial
year was 6,950. About a third of these
now are engaged in war service.

H. B. "Imperial" Lager Beer, quarts,
12.00 per dozen.

MANY TEACHERS ARE WITH BRITISH FORCES

More Than 5,500 From Eng-
land and Wales Have
Joined the Army

London, Aug. 10.—More than fifty-
five hundred school teachers from
England and Wales have joined the
British fighting forces since the be-
ginning of the war. The proportion is
largest in London, where the five pub-
lic schools have provided 1,350 school
master recruits.

The educational authorities grant an
enlisting teacher a leave of absence
for the duration of the war and guar-
antee him reinstatement without detri-
ment to his status, salary-increases or
professional prospects. Moreover,
while serving in the army, he is al-
lowed his full school pay, less army
pay and allowances.

The school masters, accustomed to
command and thoroughly familiar with
the system of Swedish gymnastics,
which forms an important part of the
training of the few armies, are in
demand as drill instructors, and large
numbers have attained non-commis-
sioned rank promptly, or accepted com-
missions.

Substitute teachers have been pro-
vided chiefly from women who left
the profession upon marriage and now
have returned to fill what are called
"war service vacancies." In hundreds
of cases where a woman teacher has
returned to the classroom, thus filling
the gap caused by her husband's en-
listment. This has led to thousands
of older boys being taught for the
first time by women.

YEAR'S BUSINESS OF CANADIAN PACIFIC

After Payment of Dividends,
Surplus From Railway
Earnings is \$89,915

Montreal, Aug. 10.—At the meeting
of the directors of the Canadian Pacific
Railway company yesterday dividends
of 2 per cent. on preferred stock for the
half year and 2 1/2 per cent. on common
stock for the quarter ended June 30
last were declared.

Following are figures for the fiscal
year ended June 30 last:
Gross earnings from railway and
steamship lines, \$98,865,119. Working
expenses, \$65,250,582. Net earnings
from railway and steamship lines, \$33,
614,537.

Deducting the fixed charges, \$10,
446,510, the surplus is \$23,168,027. De-
ducting the contribution to the pension
fund, \$125,000, and transferring the net
earnings of the Pacific Coast steam-
ships to the commercial telegraphs, and
the news department, \$1,494,152, to the
special income account, the net revenue
from the railway earnings available for
dividends is \$21,508,865. After the pay-
ment of all dividends declared for the
year, the surplus from the railway
earnings is \$89,915.

The special income for the year,
\$19,969,332, is \$2,381,461 in excess of
that of the previous year.

"But every woman ought to have a
man to protect her." "I know it, that's
why I refused you."

TWO WERE DROWNED AT VANCOUVER TO-DAY

Archibald McAlonen and Nineteen-
Year-Old Daughter Were Bath-
ing; Bodies Recovered.

Vancouver, Aug. 10.—Archibald Mc-
Alonen, 876 Richards street, an em-
ployee at the Vancouver court house,
was drowned in False Creek this morn-
ing. His daughter, Miss Eva Mc-
Alonen, aged 19, tried desperately to
rescue her father and also lost her life
in the most tragic bathing accident
that has occurred here this season.

Bessie, a younger daughter, accom-
panied the two who were drowned to
the bathing beach at the foot of Jervis
street, just where False Creek empties
into English Bay. McAlonen, who was
about 50 years of age, probably was
caught in the tide, for suddenly his
daughters noticed that he was carried
away, and a moment or two later he
sank. No one happened to be near at
the time and Miss McAlonen sent her
younger sister hurrying along the
beach to bring help.

When Bessie returned with help
neither her father nor her sister was
to be seen. Evidently Miss McAlonen
had tried to help her father and had
been carried away in the tide.

Both bodies were recovered within
half an hour.

A DEEP MANOEUVRE.

An important announcement is reported from Petrograd to-day in regard to the plans of the Russian higher command. It is in effect that the line of Kovno-Grodno-Bielostok-Erest Litovsk will be evacuated and the Slav forces will retire into the interior before offering decisive battle. In other words Russia will duplicate the tactics pursued by Joffre in the west last August when he abandoned his northern frontier fortresses in order to fight the enemy under favorable conditions at the Marne. The line the Grand Duke would retire upon probably would bring him within easy reach of his bases and enable him to meet the enemy at a striking advantage. It would involve the evacuation of Vilna and possibly Riga, but this would be of negligible importance if it induced the Germans to advance beyond the Bug.

The Germans undoubtedly have penetrated the Grand Duke's design and the question is, will they continue their efforts to envelop the Russian armies even beyond the Bug river? In the light of the teachings of history and the lesson of the Marne we naturally would expect them to take no rash chances. On the other hand, however, Germany must obtain a decision somewhere on such a scale as to bring the war to an early end. She has tried peace negotiations several times and failed. She knows that the allies are determined to crush out Prussian militarism, which of course, would mean the end of the Hohenzollern dynasty and the military oligarchy of which Prussianism is the sole foundation. A decisive blow at Great Britain, France and Italy cannot be struck as long as Russia continues to be a formidable menace on the east front. The occupation of the whole of Poland to the Vistula does not ease the situation from the German standpoint. It only increases the territory the Germans must protect. Nor would the extension of their permanent line from the Vistula to the Bug diminish the difficulty, for that would require an even greater number of men. As long as Russia's military strength is unbroken the Germans cannot remain inactive on the eastern front. The area is too spacious to permit the establishment of defensive works such as they have constructed on the western front. Moreover the prospect of achieving their purpose with a decisive stroke is still imminent before them, just as it was before Napoleon when he followed the defenders to Moscow.

There is, besides, the Turkish situation. Until she has dealt Russia a vital blow Germany cannot help her devoted ally on the Bosphorus. By penetrating into Russia far enough and throwing forward her right wing she may anticipate a descent upon the Black Sea, where the Russian fleet has been playing havoc with Turkey's marine communications with the Anatolian armies. But looking at the situation from the standpoint of Germany's necessities we think we can confidently predict that she will follow Russia into the interior of that vast country. Berlin bankers have warned the Kaiser that the financial condition of the empire was such that another winter campaign would be disastrous. His reserves of men are being depleted with alarming rapidity. His supplies of copper and cotton have been seriously restricted. He must win peace with a striking success soon or all will be lost.

The Russian plan will give the Slav munitions campaign time to bear fruit. It will give Great Britain and France time in which to prepare for a big offensive at the moment when Russia turns at bay. It will give Italy time in which to further her campaign towards Trieste and Trent. By consuming Germany's reserves it will favor the intervention of Roumania, for it prevents the dispatch of reinforcements to the Roumanian frontier.

These circumstances, of course, are known to Germany and no doubt have been fully weighed by her army staff, but she seems to have no choice in the matter. She must keep on and on in her pursuit of overwhelming victory in order to avert serious troubles at home. As we have pointed out she must lay the foundation of peace with Russia at all costs without delay. There is little doubt that the allied leaders in the west were acquainted with the Russian plan weeks ago, which may explain the failure of the British and French to undertake any serious operation which might check the German intention in the east and prevent the Russians from manoeuvring into a position where they would obtain a definite advantage.

CANADIAN ENLISTMENT.

According to the latest returns on the progress of recruiting in Canada there is still abundant room for improvement. The populations, numbers of volunteers and percentages in the various provinces are:

Province	Actual No.	Pop. Vol. Per Cent.
Ontario	5,525,254	35.30 144
Quebec	2,603,222	12.850 6.01
Maritime Provinces	2,077,565	7.400 6.73
Manitoba and Saskatchewan	528,046	24.000 2.78
British Columbia	292,480	10.000 2.55
Alberta	274,632	14,200 3.73
Total	7,008,633	106.500

Two striking facts are disclosed by this table. One is that the percentage of enlistment throughout Canada as a whole is only 1.48 and the other is the unfavorable showing of the eastern provinces in comparison with those west of the great lakes. An effort is being made to overcome this discrepancy by a series of recruiting meetings which, it is satisfactory to learn, is having a decidedly stimulating effect.

All things considered, the four western provinces have done well and will do better. The percentage of Alberta is particularly good and if Canada as a whole did as well the country would now have 268,156 men in training and at the front. Three years ago Ontario was deeply concerned over the loyalty of the prairie provinces. It feared that if they were given the privilege of selling more grain and cattle to the Americans their patriotism would disappear and the whole country would be "annealed" by Uncle Sam. So in order to save the westerners from themselves and preserve the territorial integrity of the Dominion the Ontario legislature blocked the "wicked proposal" to extend our markets. Their outward manifestations of loyalty, such as waving the flag and picnic speeches, were very impressive, but when the test came—the time to make good patriotic protestations of the national emblem—it was Alberta, the "alleged hotbed of reciprocity bedition and treason," which headed the list and Ontario which lagged painfully in the rear with her sisters east of the great lakes. British Columbia's percentage, while much greater than that of any of the eastern provinces, is not good enough for us, and we hope to see it reach the Alberta mark. Here is an opportunity for the development of the most effective kind of rivalry among the provinces.

THE ARMY AND THE CIVIL LAW.

An incident occurred at Vernon a few days ago, which emphasized a vital principle that must not be disregarded even in time of war. A deputy sheriff entered the military camp for the purpose of serving a writ upon a soldier. An officer, a captain, ordered the deputy to take the papers back, summoning a guard with fixed bayonets to give convincing substance to the order. But in doing this the captain was guilty of a serious offence, a technical assault upon an officer of the courts, and he was haled before the magistrate and fined. The magistrate took occasion to remind the accused that the civil law was supreme and that an official of the courts had as much authority to serve a writ or summons upon a soldier as upon a civilian.

The magistrate's reminder was timely. In all British countries, except in the period covered by the proclamation of martial law, the civil authority is supreme. Nothing else would be tolerated by the people whose ancestors fought for centuries for the right to control, through their representative institutions, every department of the public service for which they were taxed. In times of national danger they will submit willingly to the suspension of the functions of the civil authority, but even this suspension can be brought about only through the procedure established by their parliament.

In Germany the civil authority is subservient to the military authority. Popular control over the army and navy is unheard of. A swaggering Prussian officer can violate the law and he cannot be prosecuted in the civil courts. He is subject to military court-martial, of course, but in that case he is tried by German military standards. A few years ago an officer cut down a helpless cripple at Zabern, in Alsace,

and was immediately protected by a farcical court-martial. In this country he would have been charged in the criminal courts and either executed or sentenced to a long term in the penitentiary. The court-martial imposed a nominal sentence upon him, which shortly afterwards was commuted. He was practically acquitted and the German Crown Prince distinguished himself by sending a message to the president of the court-martial commending the result of the trial. The incident caused a tremendous uproar. The Socialist members of the Reichstag used it as a ground for a fierce attack upon the German chancellor and the Crown Prince was bitterly assailed. The Kaiser, realizing the serious nature of the affair, ordered the removal of the military governor of Alsace and the storm died down. But the incident left an indelible impression upon the mind of the war party. It was one of the signs of the times, a symptom of the restlessness of the German people under military tyranny, and there is little doubt that it confirmed the determination of the Kaiser and his satellites to precipitate a war as the only means of side-tracking an agitation which some day was bound to shake Prussian militarism and the dynasty of which it was the main support to their foundations.

Germany has made no reply, and seems to be in no haste to reply, to the last American note. Wherever the president seems to be well content, but the American papers are becoming impatient, some of them showing signs of exasperation. Discussing papers which have passed between Washington and London and Berlin, the Boston Transcript says: "To keep clearly in mind the fundamental difference between the five case and kindred cases of British origin which are concerned solely with property rights as guaranteed by treaties whose interpretation is a subject of honest differences between Washington and Berlin and Washington and London and the Lusitania is the duty of all who desire to avoid the alien influences now at work to poison American public opinion with respect to the justice of our government's course. The Lusitania massacre was a crime against civilization as well as in violation of all the laws of God and man. We can with self-respect and should accept the offers of arbitration of Germany and Great Britain in the matter of their interference with American shipping, for these are questions of a justiciable character. But if we abandon our dead on the Lusitania to their fate and bargain with their unrepentant murderers about the terms upon which our living may travel on the high seas we shall deserve as a nation the contempt which will await us and haunt us the world over."

Last winter Austria undertook an invasion of Serbia. She mobilized 200,000 men for the purpose. The Serbian army had been weakened by previous campaigns aside altogether from the two wars which preceded this one and its supply of ammunition was depleted. It was compelled to abandon Belgrade and its strong frontier positions to the Austrians. It evacuated village after village and mountain crest after mountain crest, falling back towards Nish. The Austrians followed, both Berlin and Vienna announcing "the military power of Serbia is broken."

A Te Deum was celebrated in the Austrian capital and Francis Joseph promoted the Austrian general to be field marshal and then the Serbs, turning at bay at their bases where a supply of munitions awaited them, smashed the invaders from flank to flank, driving them clean across the Drina and Save, and recapturing every inch of ground they had lost. One half the fine Austrian army was destroyed and practically all its artillery and supplies were taken by the victors. This, the most decisive victory of the war, may be repeated in Russia on a much larger scale.

Alberta, which heads the Canadian provinces in the percentage of enlistment, was very strong for reciprocity with the United States. It also is the home of Dr. Michael Clarke, whose family is well represented at the front.

German scientists, efficient men, are said to have discovered a means of preparing a satisfactory meal at a cost of two cents. Satisfactory to whom? We suggest that Little Willie and the Grand Duke be fed up on it.

The Dutch, inspired doubtless by Germany, are also agitating for peace. All indications point to the fact that the Kaiser feels he has about reached the end of his tether and that the rope is around his neck. Hitherto the Germans have been fighting the Russian armies. It is evidently their intention to fight Russia. There is a considerable difference between the two as we shall see. Buck up in recruiting, you provinces east of the great lakes. We in the west have only started, nevertheless in proportion to population we are many laps ahead.

portion to population we are many laps ahead.

Russian strategy plainly is causing uneasiness in Berlin. Perhaps that is the reason why there was no state entry into Warsaw.

THE TRAGEDY'S LESSON

London Daily Mail.

Is it not a tragedy that the richest nation in the world, nearly a year after this and other warnings, should have allowed its men to be so terribly handicapped as our soldiers have been? The blunder is being remedied at last now that the war is nearly a year old. Every man and every woman in every armament factory should be warned that a few seconds saved in the making of shell cylinders and machine-gun parts mean a life, perhaps the life of a friend. Every high-explosive shell and every machine-gun that can be purchased from any neutral source to supply us should be bought at once.

THE FARM VACATION.

Detroit Free Press.

Seriously, the farm vacation is an enjoyable one, of course. But the busy, busy vacation is not a good thing for the average man or woman. Change of employment such as comes to the city worker who leaves four walls to work in the open field, beside the farmer is indelible to the individual, even if it does result in times in sore and stiffened muscles. So, coax your farmer friend for permission to help him in the hay and grain fields. He'll give it.

CAN'T FOOL BURGLAR.

Quebec Mercury.

New York has a burglar who makes a practice of cutting off the braided hair of women while they sleep. He knows his business all right, for he hasn't been fooled yet into taking the bunch that rests on the dressing table at night.

AGRICULTURAL IMPEDIMENT.

Louisville Courier-Journal.

Agriculture will be impeded for a century on the European battlefields because every time a laborer's hoe is swung vigorously it will strike an unexploded shell and cause its explosion.

NOT ON PAPER.

It is not a piece of paper, it is not a few attractions engrossed on parchment that make free governments. No! The law of liberty must be inscribed on the heart of the citizen. Hugh S. Legare.

NO DUPLICATES.

Ti-Bits.

Customer—Waiter, this is the first tender steak I've ever had in your shop. Waiter—My goodness! You must have got the guinea's.

NO TRIFLE.

Baltimore Sun.

"Does she doubt your love, count?" "Pardon! Worse! She doubts my title!"

THE NATION, TOO?

Ottawa Journal.

They say that Helt the German, was crazy. Why pick out Helt?

PRIDE FOR BLACK WATCH

German Press Admits Their Wonderful Fighting Qualities.

The principal German papers contain graphic descriptions by war correspondents of the great attack by the British and French in the second week of May, which resulted in a considerable gain of ground along the line Richebourg, La Quiquie Rue, and Festubert. These accounts are notable in one or two instances for the tributes paid to the heroic conduct of the Black Watch.

The Frankfurter Zeitung, after describing the French attack on May 3, says: "Then the British came into action with tremendous fierceness. They would break through, cost what it might. They attacked in three lines. The front regiment was mowed down by our fearful fire, and the following regiment, under a terrible hail from the guns, was unable to advance. Then the British sent one of their best Highland regiments to the front, the best they have anywhere. The Black Watch advanced. The gallant Scots came on, but even their really heroic bravery was in vain, for they were not able to turn the fate of the day."

The Deutsche Tageszeitung says: "The British advanced with extraordinary force. They had in action about a division, and called upon them to advance in three lines. After the first line had been thrown back with fearful losses, the second line could not advance. The elite regiment, the Scottish Black Watch, was called forward, and bled to death without having obtained anything. Two men actually reached our breastworks, and had to be in front of them from five in the evening until six the next morning before we could look after them."

DAVID SPENCER, LTD.

The Extraordinary Carpet Bargains

Being Offered at This August Sale

Is the direct result of a thorough readjustment of stock, and weeding-out all Rugs of which we have but one or two of a kind. For an immediate clearance prices are reduced to about half—in some cases less.

On Wednesday We Offer Five High-Grade Axminster Rugs Regular \$49.50 to \$54 at \$29.75

These Rugs are taken from our range of best-grade Axminsters, and are very fine qualities. Rugs that were previously marked to sell at \$49.50 to \$54.00, but just one of a pattern is the cause of their being so heavily cut in price for a quick clean-up. A glance at these Rugs, as they are displayed in the View street windows, will at once convince you that they are rare bargains and well worth securing. In fact, it's one of those extraordinary opportunities to secure the very best, at a ridiculously low price. Each Rug measures 10-6x12 ft., and you choose from a choice Oriental design, also two-tone greens, with plain centre and combination colored border. Others in floral and allover effects in very pretty colorings. Rugs suitable for the diningroom, drawingroom or den. On sale Wednesday at \$29.75 at Second Floor

Good Quality Axminster

Hearth Rug Special Wednesday \$2.95

A splendid quality Rug, made by the leading Rug manufacturers at Kidderminster, England. Well woven from selected yarns in a good variety of artistic designs and colorings. Size 60x35, and finished with fringed ends. A Rug that gives perfect satisfaction in wear and has a very smart appearance. See samples in View street window. Second Floor

35 Wilton Hearth Rugs

On Special Sale Wednesday at \$2.65

A serviceable quality Wilton Rug in a very useful size, measuring 23x46. Comes in four different designs, and in green and fawn shades. A Rug very suitable for bedroom, parlor or den, and one that will give good service. Second Floor

Spot Muslins and Vestings. Values 20c and 30c. On Sale at, Yard, 15c

The balance of our summer stock marked for a quick clearance. There's a nice assortment of designs mostly in spot effects and all fine, even weaves. Splendid washing qualities, and at the above price quick business will result. Main Floor

Two Big Values in Meat Safes

Every home needs a strongly-made Meat Safe, especially at this season of the year, and here's the opportunity to secure one at small cost. Each safe has 2 shelves, wire mesh on two sides and door, well made and finished.
Size 24 in wide x 36 in high. Reg. \$3.50 value for \$2.90
Size 18 in wide x 31 in high. Reg. \$2.50 value for \$1.90
Second Floor

Wednesday We Make an Important End-of-Season Clearance of Ladies' Trimmed Hats at \$1.50 and \$2.50.

A most desirable assortment, including many imported models. To appreciate the values in this offering you need to see the goods, and examine the qualities.
Children's Straw Hats, to clear at 25c and 50c
Children's Silk Bonnets, to clear at 50c
Second Floor

Brussels Squares. Values to \$27 on Sale Wednesday at \$9.75

A nice selection of best quality Brussels Carpets, mostly in choice green shades. Carpets that will give lasting satisfaction and perfect wear, and we offer them to you at a price out of all proportion to their regular values; in fact, it's only the price of an inexpensive Tapestry Square. Your choice of two sizes, 9x12 and 9x10.6. Ten Rugs only in the lot, so shop early and secure first choice. Second Floor

Women's White Wash Skirts

Values to \$4.50. On Sale Wednesday at \$1.90
In pique, rep, ratine, basket weave and brocade. Button down front, yoke, and three-tier effects. Regular values to \$4.50. Clearing Wednesday at \$1.90
First Floor

DAVID SPENCER, LTD.

They were speaking of luxurious living, and this anecdote was recalled by Will Prie who was recently appointed a member of the federal trade commission by President Wilson. One afternoon the teacher of a public school in the country spoke to the young children relative to common phrases and questioned them as to the meaning of certain terms. "For instance," remarked the teacher, addressing the whole class, "what is meant by the lap of luxury?" "Pledge, Miss Mary," exclaimed a little girl, with brightening countenance, "I can tell you." "Very well, Sadie," encouragingly responded the teacher, "what is it?" "It means," was the triumphant rejoinder of the small pupil, "when the cat sneaks into the pantry and licks the cream off the milk."

sent to address the meeting of the institute. Miss. Wilson, matron in charge of the nursing staff of No. 1 general hospital, now at Macaulay's Quains, and Nurse Stewart, of the same staff, were also present, and received a cordial welcome from the speaker. Mr. Sutherland, in his address, outlined the aims and objects of the Red Cross society, and Mrs. Hassel reviewed the desire for co-operation in the operation among all the working branches of the organization throughout the island. Every one wanted to help the Red Cross, which, instead of diminishing the scope and labors of the individual, increased the number of opportunities to do something useful in the service of the empire. She also referred to the fine spirit of co-operation which marked the women of the Shuangian Lake district, where a large number of people were engaged in the work of collecting and distributing money.

At the close of the address Mr. Kingzett was accorded a hearty vote of thanks.

DAY PHONE 698 OR 697.

We have decided to place three or more high-class cars at the disposal of our clients for hire trips to various points or for sight-seeing jaunts around Victoria. Only capable, careful, competent mechanics will be sent in charge of these cars, and we assure prompt, courteous attention to all orders. Call, write or telephone.

AT THE THEATRES

"MILLIONAIRE BABY."

"The Millionaire Baby," in its initial performance at the Dominion theatre last evening made an unqualified hit. The production is beautifully staged and convincingly played. It would be impossible to imagine a more realistic scene than that of the violent thunderstorm and the lightning-struck cabin bursting into flames, torrents of rain pouring down the while. But there is scarcely need to particularize as the picture is a masterpiece from start to finish and productions of this kind have but to be seen to be fully appreciated. The ballroom scene is another fine example of the producer's skill and the dainty dancing of the Millionaire Baby is not the least enjoyable item in the feature. The picture which is presented in six parts, will be shown again to-night and also on Wednesday.

FRANCIS FORD

"THE WESTERNER" PLAYS

Allen Players Produce Exciting Drama at Princess Theatre: Appropriate Audience.

"The Westerner," which is the play running this week at the Princess theatre under the auspices of the Allen Players, is a breezy wholesome four-act production with plenty of both comedy and drama for an audience influenced by the midsummer weather. In Act III, the excitement works up to such a point that a record temperature in the auditorium would be quite negligible, and interest of a less intense character fills the final act in a manner quite approved by the on-lookers. One of the unusual features of the play lies in the generous opportunities that it gives every member of the company and everybody in any way involved in the plot seems to be taking part in the story until the very last moment of the final act.

The fluctuations of San Diablo stock, heavily invested in by Matthew Lawton, whose status as a rich man depends almost entirely on the standing of the said mines form the central interest of the story. In the first act San Diablo stands above the Lawtons as a flourishing and life-giving force for all concerned. San Diablo's stock sways in Act II, in the succeeding act it falls, and only through the heroic action of the lover of Lawton's daughter is her father saved from selling out. When San Diablo soars to 175 his fortunes are restored, and the plucky young man who risked disgrace in an action inspired only by sublime faith receives the hand of the rich man's daughter in marriage.

It is all very romantic in the way that stock speculators' fortunes go, and makes a good play. Miss Verna Felton in the role of the rich man's daughter has a relatively small part which is feebly interpreted. The leading characters are really James Errol, very well acted by Biron Bagani; Harry Lawton, his friend, and incidentally a son of the rich man's daughter, very spontaneously impersonated by Charles Bennett; Charles Reid, Andrew Burke, and Matthew Lawton, remarkably well done by Messrs. Hazard, Wiggins and Ombert. There are also Mrs. Deans, Jessie Deans and Simon Deans, all infected with a craze for betting, the parts being capably filled by Mrs. Allen, Miss Sandison, and Charles Connors. Martin Ferris finds a capable exponent in Mr. Kenck.

ART AT PANTAGES

Living Statuary and Pictures Reproduced on Stage: Other Good Features.

No words can do justice to the last feature presented at Pantages theatre last evening by Henriette de Serris and her company of selected models, who posed in a series of famous works of art. It is quite the finest thing of its kind, that has ever been shown here, and it was gratifying to see such generous appreciation on the part of the spectators.

The subjects were eight in number, four being living reproductions of famous paintings, four living statuary groups. Probably because the latter depended almost entirely on the models and not on the background they approximated more nearly to the perfect illusion sought, and certainly there were moments when the figures attained such absolute poise that the groups might have been carved in snowy marble. Only an artist could have arranged the lines both of the posed models and of their draperies. It was obvious in the statuary groups particularly that Mme. de Serris had not chosen these because of their ease of reproduction. Nothing, for instance, could represent better the athlete in the full intensity of motion than "At the Winning Post," after the famous marble group by Boucher in the Musée de Luxembourg, Paris. In these three sculptor has depicted three runners straining toward the goal, swift motion frozen in marble. "The Hunt of Meleagre," a Wedgwood has relief after Francois Rude, destroyed during the past year among the art-treasures of Lorraine, has a double interest in that it is now numbered among the

AMERICAN PRAISES INDIAN
TROOPS
THEIR SPLENDID SERVICES

Henry N. Hall, in the New York World, describes a visit to an Indian prince at the front.

More than 10,000 Indian troops are fighting with the British forces in France, and many thousands more are in Egypt, in Mesopotamia and other parts of Turkey in Asia.

So great have been the services rendered to the allies by these eastern warriors that, when King George of England visited his troops at the front, he always was accompanied by one of the Indian princes, in recognition of the splendid valor of the Hindu soldiers.

Thus, when he went into Belgium to meet King Albert, he was accompanied by two Maharajas, who rode in the same car with him, and stood beside the Prince of Wales at Fumes when the two monarchs reviewed the Belgian divisions which had fought at the way from Liège to Antwerp, and from Antwerp to Yser.

One of the two Indian potentates thus honored was His Highness, Raj Rameshwar, Shri Maharajah of Bikaner, who is now fighting in Egypt at the head of the Bikaner camel corps, and the other was the famous Sir Partab Singh, a great Rajput chieftain who is now fighting in the British army, and one of the most fascinating figures of the great war.

Met Polkare With King. Sir Partab Singh also accompanied King George when the latter met President Polkare and General Joffre at the headquarters of the British Fourth Army Corps, and special mention had been made of this fact to the distinguished painter, who was accompanied by the king to do a historical picture of that meeting.

I accompanied Herbert A. Olivier, the artist, on the trip he made to the headquarters of the Indian expeditionary forces to meet Sir Partab Singh, who had agreed to pose for his portrait, and while the painter painted I was able to talk with the prince.

On our way to the Indian village, that lies quite near the Belgian frontier, in the Department du Nord, we passed a railroad depot, closely guarded by Indian troops, where numbers of large trains were being unloaded from a train. As we had to stop at the grade crossing to show our papers, I inquired what the tasks were.

"Water from the Ganges," I was told. "It gives a good idea of how complete the equipment of the Indian army is, this army that brought with it not only its own herds of goats and its own supply of meat for cakes, but even thousands upon thousands of gallons of water drawn from the sacred river at Allahabad, the true Prayag, where the devout Hindu hope some day to repair to wash away their sins."

We found Sir Partab Singh in the first big house after the railroad crossing. A captain of the Jodhpur Lancers was waiting for us at the door. He was a tall, swarthy-looking man with an aggressive black moustache and big flashing eyes. Three stars embroidered in gold on his breast showed his rank, and his khaki uniform differed only slightly from that of a British cavalry officer. The tunic was a little longer and partly hid the riding breeches, which were of a fuller cut than the regulation European pattern. But it was the drab turban that principally attracted my attention. Fold upon fold of soft silk was wound round and round until it formed a headress scarcely less imposing than the huge headdress worn by the guard regiments on parade.

"Faust! Open on Piano." It was a very raw and windy day, and a cold drizzle was falling. The roadway and sidewalk long since had blended together in a sea of mud, through which we waded more than ankle deep. Once inside the house, we were shown into a parlor where a big fire was blazing. On the tables were copies of the London Field and other sporting magazines, and in a corner stood an open piano. I could not help noticing the music. It was Gounod's "Faust."

The side-de-camp told us that Sir Partab Singh had been up all the previous night, and was sleeping, but had left orders to be awakened on our arrival. Would we wait a few minutes? In a few moments everything was ready. Then there was a sound of footsteps upon the stairs, and a few hurried steps, the door was thrown open, and a very erect, soldierly man stepped jauntily inside. Sir Partab Singh is a powerfully built man, whose every movement shows

grace and strength. He greeted us in English, in short and rather jerky phrases, and his "Glad to meet you, Mr. Hall. Hope you had good trip," reminded me forcibly of Mr. Roosevelt's manner of speech. He seemed very pleased when I addressed him as Maharajah Sahib.

It was difficult to guess at his age. His bearing was that of a man still in the prime of life, and there was plenty of color in his tanned and swarthy face; but the hands were the hands of an old man, gnarled and shrunken with age. How old he was I did not realize till something came up in our conversation that brought it home to me in startling fashion. We were talking about Lord Roberts, whose death in France when he went over to visit the Indian troops had deeply affected Sir Partab Singh. He said:

Friend of Lord Roberts.

"Lord Roberts was a great soldier; best fighting man of all. It was too bad he died. He was a brave man, and a good friend—the best friend I had."

"How long had you known him?"

"We met first in the mutiny. From the first day he was my friend."

It hardly seemed possible, but the record shows that Sir Partab Singh is a general officer at the front, who does not "use a car to make his rounds of inspection. He always goes on horseback. He is one of the finest riders that ever sat a horse, and is famous all over the British empire as having been one of the best polo players and most expert pig-stickers in India. We were talking of sports, when he said:

"Pie-sticking is good, yes, but war is best. This is a fine war—a very good fight. 3,000 Indian cavalry killed, sir. Good for India. All now come to fight Rajputs, Jats, Pathans, Mohameds, Hindus, Maharrats, Sikhs, Gurkhas. Fighting men have nothing to do, and make mischief. Now all India is united to fight. It is a good war. We shall win, and the army will return to India with much glory."

There was the least of combat in the rather small, bloodshot eyes that gleamed at me from beneath big, shaggy, black eyebrows. The heavy moustache ended in two pointed points, like two enormous. Not a hair of the head was visible, the enormous turban covering the left temple and ear entirely, and being wound so close around the back of the neck that it passed behind the right ear, and up across the forehead, without disclosing a single hair. The mouth and nose were full and sensual, the cheeks dimpled and furrowed by "crow's feet."

The features had plenty of—manhood of the joy of living. "as gallant at court as he is brave and dauntless in war."

During two days spent at the Indian headquarters I saw a good deal of the men whose ancestors fought Alexander the Great, and who, for the first time in history, were taking part in a European war.

It is no small tribute to British rule in India that, at the outbreak of hostilities, more than 700 Indian princes and chieftains placed themselves, their wealth, and their followers at the disposal of the victory.

Most Warlike of Indians. Those chosen for the expeditionary force were the crack regiments of the Indian army, and the men of the most warlike tribes—Gurkhas, Pathans, Sikhs, Punjabs, Rajputs, etc. The only men I actually saw belonged to three regiments—the Bengal Lancers, the Jodhpur Lancers and the Gurkhas. The Gurkhas were the most picturesque.

These little fighters—many of them are scarcely five feet tall—come from Nepal, in the Eastern Himalayas. They are powerfully built men, and their lack of stature comes from the fact that they are very short-legged. They are not small men—they are short men. So their arms, which are in proportion to their trunk, look too long. They wear khaki tunics, with a kind of khaki kilt which leaves the knee bare. In addition to the regulation rifle and bayonet, they carry a short-handled and vicious-looking curved knife, called a "kukri," which is their favorite weapon when they get to close quarters.

Nearly every Gurkha I saw was smoking. They were very uncommunicative, but looked happy, and did not seem to mind the cold and the mud. An entire battalion was quartered in a small village, having been sent back from the trenches to rest. They were entirely independent of the country in which they were for supplies of any kind, and the commissariat arrangements were beyond all praise.

The French inhabitants looked upon them with curiosity, but not with fear, and were always ready to do anything they could to make their dusky guests comfortable.

Spades Humiliate Cavalry.

The bearing of the Indian cavalry was somewhat different from that of the Gurkhas. They were Rajputs, and the very best type of men found in India. Descended from the first Aryans, they are the prototype of the Indian branch, just as the Greeks may be said to be the prototype of the European branch of the greatest Indo-European race, which is so distinct from Semitic or Turanian stock.

The Indian cavalry also has the same traditions of superiority over the other arms of the service that the crack cavalry regiments of European armies have. Just as a French Cuirassier holds himself above the soldier of the line, or a Life Guardsman looks down upon an infantryman, so do the dashing

lancers of Jodhpur consider themselves better than the men who shoot the rifles.

But they are learning not only how to shoot with rifles, but how to use the bayonet as well. When they were first sent into the trenches they were as hurt as were the men of the Tenth Hussars, who felt bitterly humiliated when short-handed trench spades were served out to them, and they were taught to dig themselves in.

The attitude of all the cavalry to "the blooming shovel" has been the same among the British, French, Belgian and Indian forces; but there is little place in modern machine-made warfare for brilliant cavalry charges. The airman are the dashing cavalry of the present day.

But to all the Indian troops, cavalry and infantry alike, the great war is a very real and wonderful thing. They are like warriors of old. In no wise different from those who fought against Darius and Alexander. They fight for the joy of fighting, and to all of them this is the great adventure, of which their children will tell for many generations to come.

They have little or no knowledge of geography. They know only that they have come over the seas, and have journeyed for a very long space. But now that they are at the front, it matters not at all whether they are in France or in China. They know only that they are in a place where there is fighting to be done, and they are eager to fight.

Letters addressed to the Editor, and intended for publication must be short and legibly written. The longer the article the shorter the chance of its appearing. BARBER'S HOURS.

To the Editor:—I think every far-sighted person will sympathize with Mr. Shanks in his lone fight for a livelihood. It seems a fair inference that the barber who operates outside the city of the city must depend largely on his evening trade. If the city barbers are making so much money that they can afford to close early, let them do so by all means, but don't assist them in the dog-in-the-manger scheme of closing up those who make the noon-time trade. Victoria needs every dollar it can legitimately grab these tough times, and will assuredly lose thousands of these dollars if all the barbers are closed at 7.30 to the detriment of the city. I agree with Mr. Shanks that shaving soldiers in the trenches is a bigger and better job than shaving slackers, and the barber who has done "his bit" will be sure of patronage when the war is over.

But above all, I would be sorry to see the city fathers ponder to see whose headquarters are in the United States and from whence all instructions as to hours and strikes are issued. When the time is ripe for another miners' strike, or any other strike, the U. S. leaders will not consider the islands well being.

WALTER FOSTER.

Maywood, B. C.

PAY CHEQUE MESSAGE.

To the Editor:—Your enquiry into the above is well timed and the reply, viz., that if any of the men felt called upon to go to serve their king and country the company would not hinder them. These quiet hints, in my humble opinion, from the C. P. R., B. C. Electric and such like companies tend to appear to their men to have other motives behind them than patriotism, and will do other than further the call of Kitchener for more and more men.

The B. C. E. men have so far done their part and will, without this quiet hint, still do so.

Kitchener is the man to do this, and in every case when he has done so the British race have and will respond.

I can well remember the time when the men of the B. C. E. were not all for those men who they are now asking to do their duty. I also might suggest to their friends, the C. P. R., that they extend their patriotism for the time being, by employing only British. Patriotism begins at home, and they would be surprised to see the effect of this. They appear to think (like many others) Britishers are good enough to fight and die for their country, but not to work for them.

The British race have, yet another example to the world. Only by the asking, and without conscription, Kitchener's requests have been complied with. The B. C. E.'s time will be better spent looking after profits than making soldiers. Leave this to the man of the day, Kitchener.

JOHN DAY.

SHIPBUILDING.

To the Editor:—Schemes to supply employment to the unemployed of this city and district have been placed before you from time to time. Now here is one.

We have lumber manufacturers, real estate firms, and people who have money to invest in a good business. Freight is at present 80¢ to Australia; other countries something similar. We could get the moneyed interests of this district to combine and build a sailing ship or steamer capable of carrying, say, 2,000,000 feet of lumber, the lumber to be supplied by the local manufacturers. During the next five to ten years timber of every kind will be required in Europe and elsewhere, and the countries which are ready to ship the same will catch the trade. It would take a year to build such a ship-hore in Victoria. Prices at the end of that time will be soaring away up, for freight, and two or three voyages of such a ship would clear the cost of building, and all remaining voyages be profit and repay the moneyed interests who invested in the

business. Sealing and whaling have paid big profits, why not lumber.

During the war you don't have to sail into the danger zone. Australia and South Africa will take all the timber you can send them.

Such a ship could be built pretty cheaply at present, and so give employment to all classes of tradesmen and laborers.

SHIP CONSTRUCTOR.

Esquimalt, Aug. 7.

CAMP MISSIONARY

AT ST. JOHN'S CHURCH

Rev. J. M. MacCormack Tells

About Construction

Camp Work

Rev. J. M. MacCormack, superintendent of the Construction Camp mission of the Anglican church in Canada, left this afternoon for Prince Rupert. Mr. MacCormack, who has traveled all over the Dominion, has visited Europe in connection with his work and there addressed big meetings at the Guildhall, etc., under the auspices of the Bishop of London and other distinguished ecclesiastics, preached on Sunday morning at St. John's church, his text being from Isaiah 40, v. 4:

"Every valley shall be exalted, and every mountain and hill shall be made low, and the crooked shall be made straight, and the rough places plain."

This, said the preacher, was just exactly what the railway, construction man was doing in this country. He was a pioneer of the empire. Mr. MacCormack then proceeded to tell something of the big work in the construction camps studied across the country, and how the missionary worked. Amongst the men who are working in these construction camps, he said, were all ranks, all nationalities. The Oxford graduate worked side-by-side with the hardy northerner with the less sturdy men from the south.

But perhaps one of the types of most interest to the missionary was the man who had come out to the new country to take up homesteading, working in the construction camp for a little money to help in settling down on the homestead. Such men were the future citizens and settlers of the country, and it was very important for the church to have a good influence over such men and help them along the lines of good citizenship. The men in these construction camps spoke many languages, so the mission distributed Bibles in many different tongues. It was found through this that the Gospel had quite a wonderful power in bringing some unity in the heterogeneous collection of men employed.

An example of the construction camp mission work was cited in the story of the big Welland Ship Canal camps, where hundreds of men are engaged engaged on one of the biggest pieces of engineering construction under way at the present time in Canada. Here the government was spending \$15,000,000 on a canal twenty-five miles in length, the five camps along the line harboring each its hundreds of laborers. Mr. MacCormack told of his efforts to provide reading rooms in each of these camps beside Gospel teaching. He had succeeded in erecting quite comfortable recreation headquarters where the men might amuse themselves in their spare hours and read the magazines and papers being sent by friends. A member of St. John's congregation had helped much by collecting papers for this purpose.

TRADE NAMES.

Some obsolete names of trades survive as surnames, e.g., Webster, Lister, Walker. In the fourteenth century the weaver was known as "the Webster," the dyer was "the Eyster," and the workman who trod the cloth, "the dye-vat" was "the Walker." The Arkwright made the arks or chests in which clothes or wool were stored, and the smith was frequently dubbed "the Faber," this latter being one of the rare cases in which the Latin translation of a craft has become a common surname. When the Cotter had forged an edged tool, the forger finished it off, or put the bloom on, the Chapman traveled with goods from door to door, and the Coke baked cakes and sold them.

SEATTLE MARU WILL CARRY FREIGHT ONLY

O. S. K. Line Vessel Converted Into Auxiliary Freighter, is En Route Here

Announcement has been made that the Japanese liner, Seattle Maru, of the Osaka Shosen Kaisha line, will in future operate in the trans-Pacific service as an auxiliary freighter. She is now bound for Victoria and Puget Sound ports with an Oriental shipment of freight, having left Hongkong on Friday last. After making her regular calls at other Oriental ports en route should make Victoria early next month. Freight shipments are heavy across the Pacific, while the volume of travel is very light, and the O. S. K. company has decided to place the new 10,000-ton vessel, Hawaii and Manila Maru, in service, so that the Seattle Maru could be converted into a vessel solely for the carrying of freight.

Advance bookings by agents of the O. S. K. line on the Pacific coast indicate a heavy stevedore list on the return passage of the Hawaii Maru. She is scheduled to sail in September.

Sails for the Orient to-day. Laden with 5,500 tons of freight from Puget Sound ports, the Japanese liner Tamba Maru, of the Nippon Yusen Kaisha trans-Pacific fleet, is expected to clear from the outer wharf this evening at 5 o'clock for the Orient. She has a heavy list of passengers.

Isign Delayed. Owing to heavy freight shipments on the Puget Sound, the Blue Funnel liner Ixion, Capt. Stout, which was scheduled to sail from the outer docks for the Orient to-day, will not leave until Thursday. She has a heavy cargo, and a large booking of the Chinese stevedore passengers from this port.

WILL ENDEAVOR TO REORGANIZE COMPANY

New York, Aug. 10.—Bondholders' committee of the International Mercantile Marine company, which went into the hands of a receiver on April 3, have proposed a plan of reorganization calling for a reduction of capitalization of about \$5,000,000, and for an assessment of \$2.50 a share on the common and preferred stock. If the plan is finally adopted, it is intended to organize a new company to take over the assets owned by the International Mercantile Marine.

NEW INCORPORATION TO SUCCEED ELEC. BOAT CO.

New York, Aug. 10.—The new company which has been formed to succeed the Electric Boat company, was incorporated yesterday at Albany as the Submarine Boat corporation. It has \$50,000 shares of stock and will begin business with \$4,000,000 capital. The stock has no par value. The state tax of \$10,000 was paid yesterday upon incorporation.

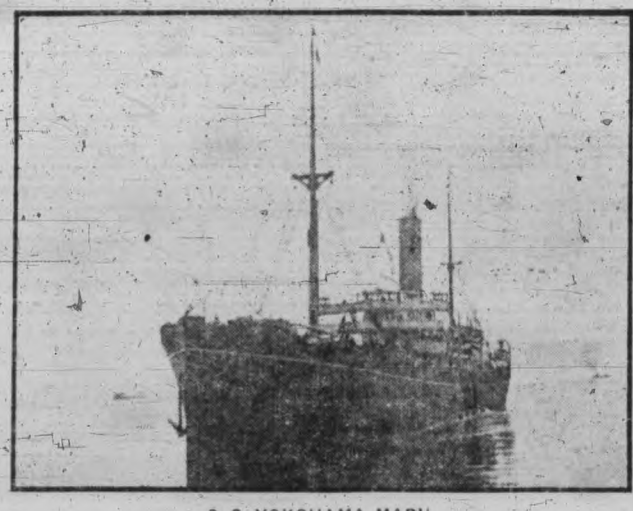

The company is empowered to build boats to operate both under and on the surface of the water, to manufacture ordnance, rifles, shells, shrapnel, projectiles, cartridges, powder and other war munitions.

RAISING THE EASTLAND.

Chicago, Aug. 10.—Work of raising the excursion steamer Eastland from its bed in the Chicago river where she turned turtle on July 21 will be started tomorrow. Officials say that the 4,000 tons of water in the hull probably will be pumped out by Thursday, when it is expected that the Eastland will be righted.

H. B. "Imperial" Lager Beer, plants 3 for 25c.

LOADING ON PUGET SOUND

S. S. YOKOHAMA MARU.

Nippon Yusen Kaisha liner Yokohama Maru, which is loading a heavy shipment of general cargo on the Sound for the Orient, will leave on her return passage next week.

SHIPPING INTELLIGENCE

Portland, Ore., Aug. 8.—Arrived: Str. Breakwater, from Coos Bay; U. S. S. Albany, from Port Angeles; str. John Paulsen, from San Francisco. Sailed: Str. Santa Barbara, for Aberdeen.

San Francisco, Aug. 9.—Arrived: Str. President, from Seattle; str. Umatilla, from Seattle via Victoria; str. Ixion, from Gray's Harbor; str. Willamette, from Bellingham; str. Thomas L. Ward, from Genoa Bay; B. C. str. Argyle, from the Columbia river; Dan. str. Bunting, from Copenhagen. Sailed: Str. Cecilia Oleum and W. P. Herrin, for the Columbia river; str. Willamette, for San Pedro; str. Monterey, B. C. str. Argyle, for Seattle; str. Walton Hall, from Yokohama for New York.

Port Townsend, Aug. 9.—Passed in: Str. Etouche, for Seattle; str. Bee, for Seattle; str. Admiral Farragut, for Seattle; str. Port Angeles, for Seattle; str. Hornet, from Seattle.

Port Townsend, Aug. 9.—Passed in: Str. Governor, for Seattle; str. Eastholm, towing a saw, for Tacoma. Passed out: str. Isabella, U. S. S. Albatross, for Tacoma.

Tacoma, Aug. 12.—Arrived: Str. Eastholm, towing a saw, from Vancouver; B. C. str. William O'Brien, from Seattle; str. City of Puebla, from Vancouver; B. C. str. Alaska, from Seattle; str. Stanley, from Tacoma.

Astoria, Aug. 9.—Arrived: U. S. S. Albatross, from Port Angeles.

Dungeness, Aug. 9.—Passed in: Str. Governor, for Seattle; str. Bee, for Seattle; str. Admiral Farragut, for Seattle; str. Port Angeles, for Seattle; str. Hornet, from Seattle.

San Francisco, Aug. 9.—With 100 tons of general cargo, the greater part of which is made up of Italian products, the str. Bunting, of the East Asiatic fleet, arrived this afternoon from Copenhagen. Genoa and the Panama canal; she was seventy-three days from Genoa. The latest charters announced at this port include: Am. str. Golden Gate, 2,775 tons; coal, from Seattle to Tacoma; str. Coronado, and private terms, by the Ralph Coal & Navigation company (October loading).

San Pedro, Aug. 9.—Coastwise steamer numbered 67, with a net tonnage of 10,500 and carrying 5,734 passengers, entered this port during the month of July, according to the report of the collector of customs.

Foreign steamers entering the port numbered 14, with 11,172 net tonnage. Six steam schooners arrived to-day, with lumber cargoes aggregating nearly 5,000,000 feet. The str. Coronado, and private terms, by the Ralph Coal & Navigation company (October loading).

NEW CORPORATION IS FORMED BY C. P. R.

Company Will Take Over Vessels Operating on Pacific and Atlantic

Organization of the Canadian Pacific Steamship, Limited, and the divorcing of the rail and water properties of the great corporation, was announced yesterday. The Canadian Pacific Steamships, Ltd., will commence operation on October 1, taking over all open steamers now operated by the Canadian Pacific railway and Allan lines. The head offices of the new corporation will be in Montreal.

The first meeting of the new corporation was held at Montreal yesterday, with the following directors present: I. G. Ogden, G. M. Bosworth, K. W. Beatty, K. C. and F. E. Meredith, K. C. Mr. Bosworth was elected chairman of the company and Mr. Maitland Kerney was appointed managing director, with offices in London, England. Steamships operating on both the Atlantic and the Pacific will be taken over by the new corporation. All C. P. R. vessels in the Pacific trades were taken over by the British admiralty, with the exception of the R. M. S. Montezuma. At the close of the war the vessels now under charter as the admiralty will be taken over by the new company.

The following vessels will be transferred from the C. P. R. Pacific fleet: R. M. S. Montezuma, R. M. S. Empress of Russia, R. M. S. Empress of Asia, R. M. S. Empress of Japan. Of the Allan line Atlantic fleet to be taken over are the Canadian Pacific Steamships, Ltd., will be the steamers Heoplian, Pretorian, Corsican, Scandian, Arctian, Corinthian, Carthaginian and Sicilian.

TOSAN MARU ARRIVES FROM YOKOHAMA TO-DAY. O. S. K. Auxiliary Steamer Has Pleasant Voyage Across Pacific. Twenty days out from Yokohama the Japanese auxiliary steamer, Tosan Maru, Capt. Y. Nakano, arrived at the outer wharf this afternoon, with freight for Victoria and Sound ports. The Osaka Shosen Kaisha company, employing this steamer, which formerly ran in the Bombay trade, to relieve the pressure on freight accommodation across the Pacific, due to the shortage of tonnage. Being one of the smaller vessels (2,856 tons) the steamer has taken some days longer than the usual time taken on a trans-Pacific voyage at this time of year. Although with good weather prevailing across the meridian the trip has been completed one day quicker than the schedule called to the agents last month.

The pressure on space across the ocean assures a full cargo on the return trip. She brings between 350 and 500 tons for Victoria, and has other holds full for the Sound. In pursuance of the policy of taking care of the freight offering since the war removed British vessels largely from competition, the O. S. K. has in turn sent the Lizon, Java, Indo, and Tokai Maru to this coast.

These auxiliaries are filling up the time till the new steamers Hawaii Maru and Manila Maru are running in the trans-Pacific trade.

PRINCE GEORGE SAILS NORTH.

The Grand Trunk Pacific steamer Prince George, Capt. Donald, sailed at 3.30 p. m. to-day for Prince Rupert. She docked at the inner harbor from Seattle shortly after 2 o'clock to-day. A large passenger list is booked for Prince Rupert aboard the liner.

It is unlawful to give intoxicating liquor to any child under five, unless by a doctor's order or in case of sickness.

ARRIVED AT COMOX. The British steamer Walton Hall, Capt. Nelson, arrived at Comox yesterday from Yokohama, completing the voyage from the Orient in nineteen days. The Walton Hall is one of the round-the-world fleet, and is bound for New York with a heavy Oriental cargo.

The New Stetson Hats

Have Made a Hit With Men Who Want Smartness and Durability Combined

There's a zip and snap about the new Stetson shapes that please men who like their hats to look smart; there's variety enough to give every man his particular hat; there's a durability about them that makes their purchase an investment instead of an expenditure.

See our classy display of all the new shapes and shades. Some are made with the heavy roll brim and a scratch finish. High crowns will be right this fall. Another special shape has a dish brim and telescope soft. Both these blocks will be very popular. As for shades, blues in different tints and greens will be worn predominantly.

REE SWING IS NECESSARY IN GOLF

Country Stars Pay More Attention Than Americans to the Ideal Stroke

Now that it is quite generally understood that Vardon and his erstwhile travelling companion, Edwardy, are not going to play another tour to this country, the students of golf will miss an opportunity for their comparison of styles between the two most prominent professionals from Great Britain and the United States. When Fredrick, the English "pro" recently engaged by the Seawick Golf Club near Atlantic City, was spoken of on this subject, he said:

The average American golfer appears to address the ball further away, or rather, reaches further for than do most of our own home fers; whereas, on the other side cultivate the more up-and-down swing (the most likely, to the grace and successful action of Harry Vardon). Jack White, George Dunlop, and even Edwardy, all play the upright swing.

Hit Ball Harder. I. H. Taylor's swing is upright, sidling his ball. James Braid is somewhat flat in the swing compared to Vardon. But we have nothing the way of a flat swing to ruin with several of your best golfers in this country. There is not the least bit that this form of doing the job from the tee may give the player feeling that he is going to "slug."

In other words, hit hard, and I maintain that it is not nearly so comfortable. The result is not certain when the yer reaches with his arms as far as from his body, and most important of all, the direction of the ball not be controlled in the same manner as with the ball just a little upright, making comparisons between

Vardon and John J. McDermott, your former open champion, I refer to those great golfers as models of each country and two ideal men to comment upon. Taking the general run of golfers on the other side, we may take it that the continued success of Vardon, his method of controlling consistently the straight ball down the middle of the course with wood or iron club, has convinced us long ago as to the method of basis on which to play.

That Ideal Stroke. "The free, and easy upward-swing combined into the downward swing, without jerking or bad turning, is the ideal stroke, but the most important of all—and this is my most convincing point—is that Vardon's club head, in coming through the ball, travels nearly by three feet outward along the line of flight before it comes away, thus proving that he is guiding the ball from the point of impact onwards."

"His club head is kept parallel to the turf. He must therefore be nearer to the ball; the upward swing is more upright, the head of the club taken from the line of the ball with the wrist of the left hand. The forearm then comes into the swing, left arm still closed, not open. From this point the upward swing is completed by turning the left shoulder slightly downward. At the same time there is a push upward from the left hand to complete the swing until the hands are nearly the same height as the right arm, left arm still closed. The downward swing becomes part of the upward, one movement running into the other, and the blow is concentrated more directly on and through the ball than in any other manner of swing."

PUG BENNETT LUCKY. San Diego, Aug. 10.—Pug Bennett, president and general manager of the San Diego Winter Baseball league, and formerly a Vancouver player in the Northwestern league, recently bonded an Arizona gold mine, in which he owns a controlling interest, for \$35,000. Bennett has been advised that the examination of the property by the mining experts retained by the intending purchasers has proven entirely satisfactory, and the option is liable to be exercised as soon as the details incident to the legal transfer of the property can be arranged.

White Rock Lithia Water

White Rock is complete satisfaction at a moderate cost. To pay more is to gain nothing. To pay less is to lose much.

As a dilutant, it blends as perfectly with the morning glass of milk as with the last soothing "night-cap" of Scotch. Its health-giving qualities purify and stimulate the entire human system, insuring a hopeful alertness of mind and constant vigor of body. It lacks the bite and sting of ordinary charged mineral waters and is, above all,

ABSOLUTELY PURE.

LEAGUE FIXTURE AT NEW WESTMINSTER

Amateur Schedule is Badly Tangled and P. C. A. L. A. Will Have to Straighten Out Matters

"Unless the Pacific Coast Amateur Lacrosse association grants the Victoria club a home game before we are asked to play on the mainland, the Victoria team cannot possibly see its way clear to continuing the schedule," was the statement of a prominent officer of the Victoria Lacrosse club this morning. A despatch from Vancouver brings word that the locals are supposed to play at New Westminster next Saturday. The locals were under the impression that the amateur schedule was to be revised at Saturday night's meeting. Nothing was done at this meeting, however, and the Victoria club refuses to play at the Royal City.

Just what action the league will take in regard to this is not known. The Vancouver club favors the dropping of the Victoria club for this year. This will take away one of the defeats now standing against the Terminus and they will have a slight chance of retaining the Mann cup. New Westminster will undoubtedly

fight this action and will probably agree to a postponement of Saturday's game, if they can keep Victoria in the league and retain the lead which they now have in the Mann cup struggle.

M'LOUGHLIN WAS AN EASY WINNER

Tennis Stars Clash in Jersey Meet; Tyler Will Play at Seattle

Seabright, N. J., Aug. 10.—Maurice E. McLoughlin, the Pacific coast tennis expert, made his appearance here yesterday on the turf of the Seabright Lawn Tennis and "racket" club in the quest for the Achilles cup. McLoughlin won his first contest by beating L. F. Mahan, of the West Side Tennis club, 6-4, 6-1. The former national champion was a trifle sluggish of action. He did not let himself out until compelled by Mahan, and then he shot drives fast and deep through the opponent's court for the victory.

R. S. Williams II, the rival of McLoughlin, is the holder of the Achilles challenge cup and will defend in the final. Ward Dawson, of Southern California, and Harold A. Throckmorton, the Metropolitan Junior titleholder, performed brilliantly. Dawson beat Sydney Thayer, of Philadelphia, 6-1, 6-4. The young Californian was too fast, his overhead smashes and volleys overwhelming his adversary. Throckmorton, completely mastered A. H. Man Jr., formerly Yale captain, at 3-2, 6-1. Man was never successful in approaching the net, as Throckmorton volleyed and crossed accurately for passes.

In the other important matches, S. H. Voshell beat D. Morgan, of Chevy Chase, 6-0, 6-1; F. C. Inman beat L. R. Dunham, 6-4, 6-2; T. R. Pell beat H. Hart, of Harvard, by default; C. L. Johnston, Jr., beat Meade Camp, Yale team, 6-4, 6-2, and B. S. Prentice beat R. C. Law by default.

Seattle, Aug. 10.—Favorites played through the first round with little opposition, and visiting players, with few exceptions, were successful in their first matches in the Washington state tennis championship tennis tournament, which opened yesterday morning on the courts of the Blackstone field, on Lake Washington.

Yan Dyke, of Johns, the Californian, whirled through his match with Benius without trouble, winning 6-2, 6-0. Sam Russell, the Seattle favorite, did not get warmed up in his title with Wilson, taking twelve straight games. Kelleher defeated Benson, the Queen Anne high school champion, to the tune of 6-2, 6-2. Joe Tyler, the other member of the third "white" Lettie, did not play yesterday. He will make his first appearance to-day against W. R. Le Blond.

RANK OUTSIDER COPS RICH PURSE

Grand Rapids, Mich., Aug. 10.—Favorites were beaten in all three events in the opening programme of the local grand circuit harness races yesterday afternoon. Glad-fought heats and whipping finishes were the rules. Ideal weather conditions prevailed.

SPORTING GOSSIP
A regimental soccer league will be formed this fall.

Seattle goes to Spokane for a seven-game series this week.

The Indians expect to take free out of seven from the Glants.

N. H. A. teams are losing quite a few of their stars to the overseas forces.

Freddie Douglas is willing to bet that his Koban engine can outspeed any small craft around the capital.

TROUBLE BREWING

IN THREE I. BODY

Players Go on Strike at Decatur; Menges Signs With Salt Lake

Chicago, Aug. 10.—The Three I league owner, after discussing a plan to drop the Decatur club, decided to play the season out with eight clubs. The meeting was called to consider the request of the Decatur magnates to sell their franchise and withdraw, but after the rest of the clubs had offered to buy the franchise, or to finance the club through the rest of the season, J. A. Corbett, the Decatur representative, decided to make another attempt to go through the season.

Decatur, Ill., Aug. 10.—All of the players on the Decatur baseball club of the Three I league, with the exception of Manager Duggan and Pitcher McCabe, went on a strike yesterday and refused to play Bloomington when they did not receive their full salaries.

Vancouver, B. C., Aug. 10.—The Tacoma team failed to arrive in time yesterday, and after waiting for some time for the tardy fliers to show up, the game was postponed. A double-header will be played later to make up for the day off.

Spokane, Aug. 10.—The driving of Walter Mails from the mound by the bat-thirsty redskins, interrupting a run of 12 straight victories for the territorial young Seattle southpaw, and a home run over the left field fence, with the bases full, by Ed Kipp, were outstanding features of the first clash between Seattle and Spokane on Recreation lot yesterday in the series that D. E. Dugdale says is going to settle the Northwestern league pennant for 1915. Spokane won the game, 7 to 1.

Salt Lake City, Aug. 10.—Before leaving for San Francisco, Manager Blankenship, of the local club, announced the release of Utility infielder Eddie Fave and the signing of Billy Menges, former infielder of the Oakland team.

McKenry lasted only two innings against the Phillies yesterday, leaving the game with the score 2 to 0 in favor of Moran's club. Cincinnati finally won out. Ken Williams, formerly of Spokane, getting a double and a single.

TWO NEW DIVISIONS HAVE BEEN FORMED BY SOCCER MOGULS

London, Aug. 10.—Following the announcement that all cup ties and international football matches had been canceled by the authorities, officials of the English Football association announced yesterday that already two divisions have been formed to continue league football, the opening of which is scheduled for September 1. One of the divisions will be made up of Sheffield Wednesday, Sheffield United, Bradford, Bradford City, Notts County, Notts Forest, Derby County, Leeds City, Huddersfield, Barnsley, Hull City, Grimsby, Lincoln City, Leicester, Rotherham, and the other by Manchester City, Manchester United, Liverpool, Everton, Bolton Wanderers, Burnley, Stockport County, Oldham, Blackpool and Preston North End, with the addition of two or three others.

All clubs which have decided on "no football" will be permitted to stand down without suffering any penalty and will be permitted to take up their old positions upon a return to normal times.

According to an announcement today, the whole of the south is unorganized and unprovided for, but a new league will probably be organized, including eleven London clubs and several within an hour's railway journey of the metropolis.

'FRISCO YACHT RACE.

San Francisco, Aug. 10.—The yawl Trojan, of the South Coast Yacht club, of San Pedro, Cal., was declared the winner yesterday in the San Pedro to San Francisco long distance sailing race led by the Panama-Pacific exposition. The time was given as 164 hours, 47 minutes, 48 seconds.

The yawl Minerva, of the same club, which arrived here to-day, was second with time of 173 hours, 46 minutes, 27 seconds.

MOTOR CYCLE RECORD.

Toledo, O., Aug. 10.—Riding 100 miles in 1:54 13 2-5 here yesterday, Malvern Jones, of Lebanon, O., and Claude Pincus, of Middleton, broke the world's motor cycle record for the first, second and third quarter of the distance, riding the first twenty-five miles in 25:20, the half in 57:25 and seventy-five miles in 1:26:50. The races were staged by the Interstate Racing association, officials of the F. A. M. being present.

EVERS TO QUIT.

Chicago, Aug. 10.—Johnny Evers, field captain of the world's champion Braves, will leave the Boston team and base ball for good at the end of the series to be played in St. Louis, some of his friends who claim to speak with authority announced Saturday night. According to these friends of Evers, the player is "tired of being the butt of a lot of unwarranted criticism," and will go to California to recuperate. Evers has not been in first-class physical condition lately.

VICTORIA LADIES TO HOLD GALA AT THE GORGE SOON

Miss Dorothy Moore, the young Victoria swimmer, has been awarded the gold medal, emblematic of the 400-yard ladies' swimming championship of the province. Miss Moore finished second in the Vancouver race, and because of the disqualification of Miss Ransom, the Australian lady who won this event, she medal has been awarded to the Victoria girl.

The Victoria Ladies' Swimming club will hold a swimming gala at the Gorge on August 21, at which a number of the mainstay stars will compete. Fancy diving for teams of three will be one of the features, and a big meet is looked forward to. Mrs. Fullard Lee and Mr. Meid have taken up the matter of having various schools adopt swimming, and there is a chance that the municipal school board will sanction the introduction of swimming as part of the school training.

VANCOUVER VISIT AROUSES INTEREST

Victoria town bowlers are anxiously awaiting the visit of the Vancouver team bowlers, an event that promises to be the feature of the bowling year in the capital. The drawing for the O. C. cup has been completed, and the members are requested to consult the chart in the club house. Finals in the Clayton cup competition are drawing near, when the Shortt, Hill & Duncan competition will also be completed shortly. In the McKenry challenge cup competition, Messrs. Fairfull and Luthian were defeated by Messrs. Melville and Melville after a close contest.

TEN CENT BASEBALL.

New York, Aug. 10.—Officials of the Federal league, it was stated here, will soon announce that a policy of popular priced baseball will be put into effect in all of the eight cities of the Federal circuit. The new prices, it was said, will be like those listed at Newark and include a rate of ten cents for bleachers, 25 cents for pavilions and fifty cents for the grandstand.

The league, it was said, is making its price war on the supposition that the decline of interest in baseball this year is due to high prices.

Phoenix Stout, \$1.50 per doz. quarts.

REMARKED ON THE SIDE

Abandonment of Cup Ties Affects Local League.

Now that the football officials in this country have come to the fore with the announcement that the famous football cup matches will be dropped for this year, Victorians were prepared for a like announcement from the Victoria and District League. The European war has not only taken away the finest of Victoria's soccer players, but it has also knocked the bottom out of the entire organization. It would be an impossible feat to get together a strong enough league to provide any kind of competition, and when the later arguments draw their quotas from the athletic clubs, there will scarcely be enough to form a single eleven. A regimental league of short duration is the best that Victorians can hope for until the war is closed.

Cup Games Should Be Called Off.

President Tom Boyd, of the A. A. U. of C., suggests that all cup matches be eliminated until the end of the war and the suggestion is one worthy of attention. We presume he means national contests such as the Minto and Mann cups, or the Connaught soccer trophy. Those interested in these particular competitions must realize that inter-provincial contests entail heavy expenditure and this money could be used to better advantage at present. President Boyd's appeal to Canadian sportsmen to rally to the colors has met with a fine response in the east, and it is to be hoped that his request that cup contests be cancelled will be complied with by the clubs both in the east and west.

Lawn Tennis Now Major League Sport.

"Tennis has lost the reputation of being a pink-tea handkerchief-in-the-sleeve, dead-old-Alby sort of affair, and has come to be recognized as spirited, red-blooded and fast. People thought its chief ingredient was milk-and-water; now they know it is ginger." So says Louis Graves in an article entitled "The Rise of Tennis," announced for the August Century, the general theme of which is said to be the startling increase in popularity of a game formerly enjoyed only by a few. How economic changes have contributed to this development, tennis being a compact game in a day of crowded cities and rising land values, how the national championship contest has been shifted from Newport to New York, what are the relative merits of the dirt and turf in courts, who are the chief heroes of contemporary tennis, why California is turning out an almost abnormal number of good players, are among the questions to be discussed in an article which will be fully illustrated and will assert in conclusion that the old-fashioned non-aggressive style of play is in no danger of falling into disrepute, despite the somewhat bellicose methods now largely in vogue.

Latest is Golf and Baseball Combined.

A hybrid game of baseball and golf has been invented by two boys in Atlanta, Ga. The object of the game is to see in how few throws the player can throw a golf ball around the course, putting the ball in the cup at every hole. Richard "Thug" Thornton is the star of the new game. "Thug" can do the East Lake course in 120 throws," says his playing partner.

Lawn Bowling Gains Popularity.

Lawn bowling is a fascinating game to watch, and the solicitude with which some of the players follow up their bowls and entreat the ball to roll into good position, is rather amusing, but just as much in earnest as the race-track fan who "pulls" for his horse to win.

Here's Why

PRESIDENT SUSPENDER

NONE SO EASY

MADE IN CANADA

CHICAGO RELAY TEAM SETS UP NEW RECORD FOR THE 400 METERS

San Francisco, Aug. 10.—Sixteen athletes struggled yesterday for four and one-half hours in the first five events of the Freighting, which is being staged on the Panama-Pacific exposition stadium, which scorers were endeavoring to keep up with the intricate system of point awarding. The five events contested were the 100-meter dash, high jump, broad jump, putting sixteen-pound shot and 400-meter flat race.

According to the unofficial figures the following is the standing of the first eight men: A. N. Richards, Illinois A. C., 4:45.21; C. A. Brundage, Chicago A. A., 5:28.78; John Jacobs, Oklahoma university, 5:41.30; H. Gellitz, Chicago A. A., 5:45.49; A. H. Hutchinson, Los Angeles A. C., 5:47.79; Fred Thompson, Los Angeles A. C., 5:48.48; D. P. Abarn, Illinois A. C., 5:52.78; Chester Fee, Multnomah A. C., Portland, 5:52.78.

None of the Decathlon Olympic records were approached.

The University of Chicago had no trouble in winning the open mile championship relay race of the Amateur Athletic union, with Leroy Campbell, John Breathed, B. Desmond and Stegman.

The Boston A. A. C. the Cincinnati Chamber of Commerce and Los Angeles A. C. teams finished in the order named. The 400-meter flat relay race went to the team of the Chicago A. A., which defeated the only other entrant, the Los Angeles A. A. In the new world's figure of 4:35 seconds. Owing to a brisk wind that was blowing down the straightaway the record will not be allowed. The winning team was represented by Harold Smith, J. Loomis, B. Loomis, A. Booth and Andrew Ward.

KINGSTON TENNIS CLUB WINNER IN CHALLENGE SERIES

Kingston Street Tennis club defeated Fairfield Road Tennis club on Saturday by four events to two, the scores in games being 6 and 5.

The results were as follows: Mrs. A. A. McHenry and Mr. A. A. McHenry defeated Miss Morley and Mr. Llewellyn, 7-5, 6-5. Miss Roberts and Mr. W. S. Simpson lost to Miss Cuppage and Mr. Thwaites, 6-4, 5-6. Mr. Case and Mr. Simpson defeated Mr. Thwaites and Mr. Llewellyn, 6-4, 6-2. Mr. Case and Mr. McHenry defeated Mr. Peacock and Mr. Greenwood, 5-2, 6-4. Mrs. Ross and Mrs. Hannan defeated Miss Earle and Miss Fisher, 6-1, 6-0. Miss K. Roberts and Miss Ross lost to Miss Earle and Miss Cuppage, 1-6, 7-5, 1-6.

Leslie Chay at 2 p. m., Wednesday, August 11, interment at Ross Bay cemetery. The funeral arrangements are in the hands of the B. C. Funeral Co.

Friends with please accept this intimation.

ELECTRICAL WORKERS AND NEW AGREEMENT

Arbitration Commences; Progress With Street Railway Men's Case

The second phase of the negotiations between the B. C. Electric Railway company and its employees has been opened by the appointment of J. A. Harvey, K. C., as arbitrator on behalf of the B. C. Electric Railway company, in the dispute with the electrical workers. E. H. Morrison, acting for the men. The government will appoint the third arbitrator.

The negotiations in the differences between the company and the street railway men were continued yesterday in Vancouver.

Considerable argument was aroused over the company's desire to delete clause 17 which reads: "All working conditions not specifically mentioned shall continue in force." Superintendent Murrin said this clause, which he had strongly objected to at the last arbitration, was an intolerable one, always hanging over the heads of the management if they made any improvement or alteration to their system.

He mentioned the question of the Fraser Mills line at New Westminster as a case in point. This line he said had been originally an interurban line operated with interurban cars, for which the men get 1 1/2 cents per hour above the city rate.

"We spent a great amount of money improving the track, until we made it the same as a city track, with city cars and city fares. Yet because it had once been an interurban line, the men under this clause 17 claimed that it was still entitled to be worked as an interurban line with the extra wages paid to interurban men."

Mr. McDaniel-I suppose if things go on with this clause in 50 years hence the men will insist on enforcing conditions put in force today.

Mr. Murrin-Yes, no matter what money we may spend in improving the line.

Mr. Hoover and Mr. Yates for the men argued that it was necessary to keep the clause in the agreement to cover up any questions not touched upon and to prevent any encroachment on the part of the company.

The question of overtime in the city covered by clause 18, also provoked much discussion. The clause as requested by the men provides for time and a half after nine and a half hours work and double time after twelve hours. This is the rate as previously paid.

Superintendent Murrin objected that in the case of spare men who work three or four days a week, most of them prefer if the opportunity offers to work for a straight eleven hours at the flat rate rather than have another man come and take their car for the last two hours.

We are willing to pay the extra rate where the man himself wishes to stay we will not pay. If this clause is insisted on we will so arrange it that a man never works extra, except in unforeseen emergencies.

Mr. Hoover for the men-That is just what we want. We want to have more men employed, even if some get less than they are entitled to.

Superintendent Murrin wished it so arranged that no double time would ever be paid except for work after midnight. He pointed out that the only circumstances under which a man would have to work more than twelve hours at a stretch would be during a riot from snow, a breakdown or such emergencies. "At that time a man is merely wanted to stay by his car. Seventy-five cents an hour, for sitting in a car during a breakdown is far too much," he argued.

APPEAL COURT CASES

Judgment Delivered in Vancouver Cases, and in One From Victoria Court.

A special sitting of the British Columbia court of appeal was held this morning for the purpose of delivering the following judgments in Vancouver cases:

Gale v. Foxley, allowed, Irving J. dissenting.

In re land registry act v. Shaw, allowed, Irving J. dissenting.

Bessell v. White Rock, allowed.

B. A. Paint company v. Fogh, dismissed; Galtner J. dissenting.

Atkinson v. Pacific Stevedoring company, allowed.

McCrinnon v. B. C. E. R., dismissed.

Hamsby v. School Trustees, dismissed.

McPhee v. C. P. R., dismissed, Galtner J. dissenting.

Gilbert v. Southgate, dismissed, Martin and Phillips J. dissenting.

Newberry v. Brown, dismissed.

Sharp v. Ingles, allowed.

Stewart v. Canadian Financiers, dismissed.

Stutley v. Cantin, dismissed, chief justice, and Irving J. dissenting.

McLewee v. Foley Brothers, allowed, Galtner J. dissenting.

The Victoria appeal of Appleton v. Moore was allowed, Martin J. dissenting.

Two persons of a satirical turn met a neighbor and said: "Friend, we have been disputing whether you are most knave or fool." The man took each of the queries by the arm and walking between them, after some hesitation, replied: "Why, I believe I am between both."

A woman mounted the step of a car carrying an umbrella like a reversed sabre. The conductor touched her lightly, saying: "Excuse me, madam, but you are likely to put out the eye of the man behind you." "He's my husband," she snarled, with the tone of full proprietorship.

OILCRETE ROAD AT ROYAL OAK

The southern end of the oilcrete road laid along the West Spanish road, as the municipal engineer's test of a preparation he found advantageous at Point Grey. The picture shows the road between the municipal hall and the hotel at Royal Oak.

TO POSTPONE ACTION TILL FUTURE DATE

City School Board's Hand in Regard to Appointments is Forced

"The principal business which was to have come before the city school board at its monthly meeting to-morrow evening has perforce been postponed by the unexpected situation developing with regard to McGill college work."

The board cannot make provision for the High school situation when school opens without knowing what effect the present position of the university will have, therefore it is understood that the subject which would have ordinarily been the main theme of discussion will have to be postponed.

The Royal Institution for the Advancement of Learning is holding a meeting in Vancouver on Thursday, and the possibility of securing some financial assistance for university work here will be advanced by local representatives.

The Royal institution has transferred its showment, representing about \$22,000, to the governors, and a scholarship is to be founded to absorb the income, but there have been donations for specific purposes which require the consent of the donors as to their future disposal.

The city school board to-morrow will be called upon to make an appointment to the position of domestic science instructor at the new South Park annex, which is to be brought into service this fall for the first time, and girls from the southern portion of the city will attend there.

There probably will be also an appointment to the position of physical instructor made. The High school situation apparently will entail another meeting before the school opens, as it is impossible to complete arrangements till that phase has been cleared up.

Beyond the opening of the Margaret Jenkins school this term, there will be little change in the arrangements, and it is considered probable that the plan which was followed at Quadra street will be adopted, and only some of the rooms opened this year.

CROWN LAND ASSESSABLE

Lessees Must Pay Taxes Upon Its Full Value by Comparison With Other Land.

Crown lands leased to private persons are taxable upon their full value, and not upon the amount of the interest of the lessee represented by the rental paid. This decision has just been rendered by Judge Young, of the county court of Atlin county.

The lands in question are lands in the city of Prince Rupert, which are the property of the province and which are leased to The Westholme Lumber company, and used by that company for its own purposes. The city assessed these at their full value in comparison with the lands immediately adjacent, and this assessment was upheld by the court of revision. From it the company appealed to the county court judge.

Alfred Carst, for the appellant company, contended that the only assessment that could be levied against the land was that which represented the value to the lessee, the amount of rent they paid for it. The property in the land was not theirs, he said, and they could not be assessed upon its value.

Fred Peters, K. C., city solicitor, argued that the company was the lessee of the property, that the only assessment the city could make was on its value equally with other property of the same character, and that the assessment should stand.

Judge Young found, after going into the points raised before him, that the lessees are liable to pay taxes on the full value of the land.

Miss K. E. Chambers, Ladysmith, is spending a week in the capital.

Mrs. Sydney Horwood, Cumberland, is visiting friends in the city.

G. H. Gower, inspector of public schools for the Prince Rupert inspectorate, is down from the northern city for a few days.

Mrs. Heathcote and Miss Grace Heathcote have returned from a visit to Mrs. Heathcote's sister, Mrs. Hawththwaite, Nanaimo.

RECRUITING GOOD FOR WESTERN SCOTS

Men Anxious to Enlist Come From Long Distances; Letter on Tobacco

Recruiting for the 67th battalion "Western Scots" is going ahead splendidly, the enrolment up to the present being about 180. Men are coming from far and wide to enlist, one man having paid his own transportation up from San Francisco in order to enter the ranks, while recruits are waiting at Alberni, Courtenay, and Prince Rupert for transportation to Victoria to join the unit.

Recruiting for the new Pioneer regiment, command of which has been given to Lieut-Col. A. E. Hodgins, is to commence at once, and recruiting officers will be appointed in the next few days and stationed at various points in the four western provinces. The new unit, whose principal operations in the campaign will be of engineering character, will have trench-building, road-making, and rail-road construction to do. The men will, consequently, be drawn for the most part from the construction camps and from among skilled mechanics and artisans. Recruiting stations are to be opened here, in Vancouver, Prince Rupert, Calgary, and Winnipeg, and wherever the character of the principal occupation of the men seems conducive to the finding of suitable men.

Major Ridgway Wilson, of the intelligence department, has returned from a visit to Vancouver, and confirms the report that a new interurban camp is to be established in the National park on Mount Revelstoke. The selection of the site, it is understood, was made by W. W. Cory, deputy minister of the interior, and J. V. Harkin, commissioner of Dominion parks. The land is about eight miles from Revelstoke, and will be cleared and fenced off, two for sleeping-cabins, a mess and a cook house, a hospital, and other buildings to be erected on the ground.

The following interesting letter, regarding the sending of tobacco to the front has been published by the Christian Guardian:

"Belgium, July 1, 1915. "For some time back I have been in a great number of arguments with our own people, and with other organizations, regarding tobacco, etc., to the soldiers. I am getting somewhat tired listening to all these complaints from the Methodist church, for these reasons: In the first place the Methodists are not at the top of the ladder when compared with other religious denominations in respect to numbers at the front with the first Canadian contingent. Now if the Methodist church is so anxious to provide something in the place of tobacco, cigarettes, etc., why in the world hasn't he himself in finding out what the soldiers needed and supplied that want to some extent? For instance, all during last winter we never had a mint of gloves issued to us—we had to buy them or go round with our fingers half frozen, and you know that it is impossible to do much work around horses and harness with your hands numbed to the bone. Also, with regard to socks, the worst part of the winter was over when the supply arrived, and by the time spring came one had more socks than one knew what to do with."

"In the second place no person welcomes cake, candy, nuts, etc., more than a soldier, because, as you know, our rations are the same day in and day out, and from personal inquiry from the colonel the Methodist church of Canada hasn't done anything in this respect as far as the artillery is concerned. If she has, would you kindly let me have full particulars, as we have received many things from other organizations and societies."

"I also notice the canteen is attacked. Well and good, but has the Methodist church attempted to place at the disposal of the soldiers a tent or tents, as the case may be, so that they could go in and play games, play the piano, read magazines, or write a letter (with paper and ink supplied)?"

"The Roman Catholic church supplies such, also the Y. M. C. A. Now, if the Methodist church is not assisting the Y. M. C. A. in this respect, she is doing absolutely nothing as far as I can ascertain."

"Now the church is no doubt doing something, but what that something is I am very anxious to know. But if it is not worth while, I am of the opinion that it is not advisable for the church to be finding so much fault with others when she is not attempting in a strenuous manner to counteract the supply of the need with every possible form of comfort and equipment at no matter what cost—see resolution enclosed."

"There has been always a deplorable shortage of reading matter. Why couldn't magazines be sent, no matter of what date? When one of the boys receives a magazine it is never idle until it falls to pieces. If you attempt to pick it up somebody shouts at you 'Smith is reading it, and he has promised it to me.'"

"Handkerchiefs have, always, been scarce. A few nights ago I noticed one of the boys cutting the top off a new sock. I said to him: 'What are you going to do with it?' and he said, 'I haven't got a handkerchief,' and before I could reply he had used it. I have seen others cut up old bags."

"I wish you to publish this letter in the Guardian, because I want our people to know all about this matter, and my main point is that it was up to the church to find out what was needed, and not for the soldier to write and ask for supplies, especially when the church is criticizing other people's donations to the soldiers."

CLAIM THAT LOMZA HAS BEEN OCCUPIED

Official Statement Which Was Issued at German Capital To-day

Berlin, Aug. 10.—It is alleged in an official statement issued to-day that Fort Number 4, at Lomza, has been stormed and the town of Lomza, which is situated on the Narew river, 72 miles southwest of Suwalki, has been occupied by German forces.

The statement follows: "The 'Eastern' theatre of war—East of the strong British forces succeeded in taking possession of the western part of Hougé."

"Mine explosions in the neighborhood of the hamlet of Beauséjour in the Champagne were without result."

"On the border of Harg forest, west of Verdun, a French observation balloon was shot down between Bellinghen and Rheims. A French aeroplane was forced to land by the fire of our anti-aircraft guns."

"Eastern theatre—On the front in the district of Kovno the attack was pushed forward with continuous fighting, nearer the line of fortresses."

"The troops of the army of General Falkie broke through the line of fortresses at Lomza yesterday afternoon and took Fort No. 4 by storm. At daybreak to-day the fortified town was occupied. Outpost still is being held by the Russians."

"Our troops have reached the Bug from Bolyani, west of Brok, to the mouth of the river. East of Warsaw we have advanced to a point near the Stanislawo-Novo Minsk road."

"Southern theatre—The army of General von Woytsch, pursuing the enemy, has reached the district north and northeast of Gieschow."

An old woman was severely reproved by her minister for bowing whenever the name of Satan was mentioned. Asked why she did so, she replied: "Well, civility costs nothing, and you never know what'll happen."

OVER 25 YEARS' EXPERIENCE PATENTS

TRADE MARKS, DESIGNS, COPYRIGHTS & C.

Anyone sending a sketch and description may receive a free opinion free of charge. Invention is probably patentable. Communication is confidential. Send for free booklet. Patent taken in all countries. No fee until patent is secured. Patent taken without charge, in U.S.A.

Scientific American. A handsomely illustrated, largest and most valuable of any scientific journal. Terms: 50 cents a year, postage prepaid. Sold by all newsdealers.

MUNN & Co. 36 Broadway, New York. Branch office, 55 F. St., Washington, D. C.

Extract From "BRITISH MEDICAL JOURNAL" March 23, 1907.

"A Most Valuable Food"

At a time when the preparation of artificial foodstuffs is receiving more attention than ever before, and when the forms of easily assimilable fat to take the place of cod liver oil are being frequently brought to the notice of the medical profession, it is desirable that some of the older forms of administering natural fats should not be lost sight of. Among natural fats, butter, easily taken, and combined with a suitable soluble carbohydrate, a most valuable food is produced.

The BUTTER SCOTCH which Messrs. Callard & Bowser, 100-102 Ross Street, Victoria, B. C., have prepared for fifty years is such an article, which has the great advantage of being palatable, and is in fact, that children are more likely to need restraining from excess than any persuing to take it. It contains 11 per cent of fat and 73 per cent of sugar, and the results of an analysis show it to be a most valuable food. It is substantially confirmed these figures: further chemical examination of the fat fraction showed it to be genuine butter fat. This confection can therefore be recommended not only as a harmless sweetmeat, but also as a very useful addition to the diet in suitable cases.

In all the Principal candy stores in Victoria.

SUFFOCATED WHILE FIGHTING FLAMES

Employee of Western Canadian Power Co., Lost Life at Ardley

Vancouver, Aug. 10.—The numerous forest fires which are threatening the Fraser valley in numerous places have claimed their first victim in the person of Walter C. Richards, an employee of the Western Canadian Power company, at Ardley sub-station, B. C. Mr. Richards, who was suffocated by the smoke while fighting back the flames near the sub-station on Sunday, died in an ambulance while on his way to the city for treatment. This is the first death from forest fires in these years.

A strong wind which started up this morning at about 6 o'clock, for a time threatened to cause many of the fires throughout the district to spread, but fortunately the wind died down again, though it greatly increased the work of the fire-fighters.

This morning the reports received by Inspector George D. McKay indicated that nearly all of the fires are under control and will be kept so if high winds do not come.

The principal fires now are at Langley and Abbotsford.

There has been no timber loss so far.

PUTTEES DISCARDED IN FAVOR OF BOOTS

London, Aug. 10.—The British army has decided to discontinue the use of the puttee, which has been the distinguishing leg-wear of the British soldier for many years, and to substitute the Russian army boot. This decision was arrived at as a result of last winter's campaign in Flanders, when it was found that the cloth puttee was little or no protection against the mud and water and led to the men suffering not from frost-bitten, but from bled feet and legs. The boots will be supplied to the troops before next winter sets in.

The puttee, which is to be discarded, was adopted because of its protection against snake bites in India, and became general throughout the British army, and in fact, since the commencement of the present war has been taken up by some of the continental armies. It, however, has proved unsatisfactory under conditions prevailing in Europe, not only because of the lack of protection that it affords but because of the time it takes to put it on properly.

MADE ADVANCE.

Constantinople, Aug. 10.—An official statement issued by the Turkish war department today states that allied troops landed north of Asi Burnu made a slight advance under protection of the Anglo-French fleet.

NO BUSINESS TO-DAY.

Los Angeles, Aug. 10.—Delegates to the sixty-first convention of the International Typographical union put aside the consideration of all business today in favor of a pleasure season at Venice, where a barbeque had been prepared. The first business session will open to-morrow.

HAVE CONSOLIDATED VILLAGE OF HOOGE

London, Aug. 10.—Sir John French, commander-in-chief of the British forces in France and Belgium, in a report given out today by the official press bureau, says the British troops have withdrawn from their line south of Hooze, near Ypres, but have consolidated the village of Hooze.

BLUE BOOK GIVES COST OF WARSHIPS

Interesting Figures Contained in Official Volume Issued in London.

London, Aug. 10.—Some interesting figures regarding Great Britain's naval expenditures are made public in a blue book just issued, although dated back to March 31, 1914.

The cost of the Iron Duke, flagship of Admiral Jellicoe, is given as \$9,750,000. The Audacious cost \$9,100,000.

It is noted that the government's decision to rush the Queen Elizabeth to completion added an even \$1,000,000 to her estimated cost. By March 31, 1914, on which date \$7,100,000 had been spent on her. How much more it cost to complete her after that date is not specified.

On March 31, 1914, four months before the beginning of the war, there were the vessels of various sorts being built for the British navy.

The cost of several ships that have been mentioned during the war is given as follows:

Ship	Cost
Battle Cruiser	\$9,853,000
Princess Royal	\$9,840,000
Queen Mary	\$9,805,000
Super Dreadnoughts	
Ajax	\$5,958,000
Centurion	\$4,970,000
King George V	\$8,890,000
Marborough (unfurnished when figures were compiled)	\$9,035,000

TRAWLERS SUNK; CREWS SAVED

London, Aug. 10.—The trawler Harbord Wiper was torpedoed and sunk by a German submarine today. The crew was saved.

Christiana, Aug. 10.—The Norwegian barque Nordmand was torpedoed and sunk by a German submarine today. The crew landed here.

Houskeeper: "How's this? You promised to saw some wood if I gave you a lunch." Tramp: "I recall no such promise, madam." The landlady told you I'd give you a lunch if you'd saw some wood, and you agreed." "Perdon me, madam. Your exact words were, 'I'll give you a lunch if you saw that wood over there by the gate.'"

"Exactly. That's just what I said." "Well, madam, I saw that wood over there by the gate as I came in."

"W. S. Gilbert was standing outside his club one afternoon when he was approached by a stranger with the inquiry, 'I beg your pardon, sir, but do you happen to know a man with one eye, called 'Mathews'?' 'No, I don't think I do,' replied Gilbert. A pause then quickly. 'What's the name of his other eye?'"

Sarcastic Husband: "For whom are you knitting those socks?" His wife: "For our Working Society for Clothing the Poor and Destitute." Sarcastic Husband: "I wonder whether they would let me have a pair if I sent them my address."

There the veterans were having "a dog" at expense of the young junior officers, many of whom were at school when the war began. If there is any ornament which is obsolete at the front it is the sword.

The sword is the officer's symbol of authority—the sign that he is on duty. In place of it the officer at the front wears his sword belt. Only one fresh to the front would see anything odd in the sword-belted officer with empty fringe for holding their swords at their hips. However, if all were there, caps, with band and visors and no tops it soon would seem commonplace.

The young officer of the new army who a year ago had no idea of ever being an officer also has the empty fringe and carries a walking stick. His sword along with countless other swords has been checked outside the cloak-room of war along with his umbrella, which no one thinks of carrying at the front. One can not tell him from the other officer except by his eagerness and his battalion insignia.

"I had studied trenches and dug practice trenches and witnessed trench demonstrations," said one of them, "but when I came to go into a trench for instruction under fire I found that it was not like what I had imagined. I wonder why nobody has been able yet to describe a trench so that one can really see it. Even the photographs deceive you. They are always taken of some show trench."

For ten months the new army had waited for its Mecca. Its soldiers have read all about the effects of modern shell fire. They know what they are in for. Learners, they came among experts, expecting to be "ragged" a great deal as novices by the old hands, and except for the veteran regulars' little pokes at their expense, they have found everybody very kind.

"We need you and there can't be too many of you," say the old-timers.

FINE QUALITY OF BRITAIN'S NEW ARMY

French Call the Men From Across the Channel "Keecheenaires"

British Headquarters, France, Aug. 10.—The "Keecheenaires," as the French peasants call the new army, have joined "Tommy Atkins," the regular, and the "Teretoreals," the front. Tommy begins to feel like the oldest inhabitant. By the way, he does not like to be called "Tommy," though the world persists in a world which is as objectionable to him as "Jacky" is to the American bluejacket.

The British regular did all the fighting for the first five months of the war. He had his joke at the expense of the Territorials when they arrived. The Territorials thought that they were made soldiers when the war broke out, but they were drilled for months at home before they were sent to France, where they were drilled some more and set to digging reserve trenches behind the line. In the spring they had their turn, and the Canadians, too.

"Don't be downhearted! There are still some Boches left!" the Territorials join the regulars in saying to the new army.

"It's kind of you. We knew that you could have killed them all off, if you had wanted to," the Territorials reply. "Don't charge too fast—Wait for us to catch up!" call the regulars.

"Well, wait on the Rhine!" answer the new army men.

Well named is the new army. It has brought a new element into life at the front. The men bear the stamp of long marches over English roads and of the mercenary formal training of the drill ground.

On seeing three or four hundred soldiers bathing in a canal, their broad chests and the fine play of their muscles told that they were of the first hundred thousand which answered the call to arms last August.

If the average old-timer of the trenches had to run five miles against the average new-army man he would be "blown" his way and the new army man would not rest past the goal as a winner. Sitting in a dugout under shell fire is not a game. When men come out of the trenches they want to sleep and eat. The tendency is to grow fat.

The veterans are fight-hardened and trench-hardened but not muscle-hardened. That is the reason why the officers encourage cricket and football and other sports. It saves the men from drudgery of compulsory exercises to keep them in condition.

The other night when the correspondent heard some soldiers billeted in a barn singing he was certain, without asking that they were New Army men. The British regular rarely sings in camp or on the march. Neither elated nor depressed, he plugs along doing his day's work. As the New Army flows in he will be outnumbered but unchanged.

Those New Army men sang "God Save the King" before they lay down in the straw for the night in the land of France, which was all so new and strange to them and so commonplace to the veterans. Their fresh young voices were pleasant to the ear.

Everyone hopes they will keep on singing. A mere layman did not know but that they might bring the news that At intervals one asks himself, "What is missing in this British army, what way?" Then he answers, "Music, for course."

If a band were to start playing in the trenches there would be a shrapnel bullet through the drum and a high explosive in the mouth of each horn in short order. Bands may have no place at the front but that does not rule out the Scottish bagpipe.

"The bands were left at home to aid recruiting," say the New Army men.

"We did not know but your officers might bring along their swords," remarked the old-timers.

There the veterans were having "a dog" at expense of the young junior officers, many of whom were at school when the war began. If there is any ornament which is obsolete at the front it is the sword.

The sword is the officer's symbol of authority—the sign that he is on duty. In place of it the officer at the front wears his sword belt. Only one fresh to the front would see anything odd in the sword-belted officer with empty fringe for holding their swords at their hips. However, if all were there, caps, with band and visors and no tops it soon would seem commonplace.

The young officer of the new army who a year ago had no idea of ever being an officer also has the empty fringe and carries a walking stick. His sword along with countless other swords has been checked outside the cloak-room of war along with his umbrella, which no one thinks of carrying at the front. One can not tell him from the other officer except by his eagerness and his battalion insignia.

"I had studied trenches and dug practice trenches and witnessed trench demonstrations," said one of them, "but when I came to go into a trench for instruction under fire I found that it was not like what I had imagined. I wonder why nobody has been able yet to describe a trench so that one can really see it. Even the photographs deceive you. They are always taken of some show trench."

For ten months the new army had waited for its Mecca. Its soldiers have read all about the effects of modern shell fire. They know what they are in for. Learners, they came among experts, expecting to be "ragged" a great deal as novices by the old hands, and except for the veteran regulars' little pokes at their expense, they have found everybody very kind.

"We need you and there can't be too many of you," say the old-timers.

DESTROYER LYNX STRUCK A MINE AND WENT DOWN

London, Aug. 10.—The British torpedo boat destroyer Lynx was sunk today as the result of striking a mine, according to an official announcement made this evening by the British press bureau.

HELD AGAINST ALL ATTACKS BY TURKS

British Took Ground East of Krithia Road, Gallipoli Peninsula

London, Aug. 10.—The following official statement was issued today: "Sir Ian Hamilton reports that fighting at several points on the Gallipoli Peninsula has taken place during the last few days. Substantial progress has been made.

"In the southern zone 200 yards on a flank of the Turkish position has been gained in spite of determined counter-attacks, which have been repulsed with heavy losses to the enemy. Repeated attacks by the Turks elsewhere in this zone were beaten off.

"Several attacks by French corps have been made, and their whole-hearted co-operation has proved of the greatest assistance.

"In the Anzac zone a footing in the Chalik Bair portion of Sari Bair also has been gained and the crest occupied after fierce fighting and the successful stopping of strongly held positions. Here, too, the enemy's losses have been considerable. The advance was commenced at night under cover of a searchlight from a destroyer.

"Elsewhere a fresh landing has been successfully effected and considerable progress made.

"Six hundred and thirty prisoners have been taken, together with one machine gun, two bomb-mortars, nine machine guns and a large number of bombs. Scattered about are quantities of the enemy's rifles, ammunition and equipment."

CANADIAN SOLDIERS WHO DIED IN GERMANY

London, Aug. 10.—The following Canadian prisoners have been heard from: At Gossens, Pte. Peters (10,045), Pte. Laidlaw (11,399), Sgt. Stammer (29), Pte. Combe (238), Lieut. of the Winnipeg Trench, Pte. Lothian (25,554), Corp. Scarfe (77), Pte. Walker (109), Pte. Scott (232), Pte. Frank Gallanau.

At Göttingen—Pte. J. Colman. At Darmstadt—Pte. Emile Bronnery. German official lists give the following as killed by the Germans: Eleventh Battalion—Pte. Bird (422), Pte. Boken (43), Corp. C. H. Bugh (433), formerly accountant for the Western Associated Press, Winnipeg; Pte. Ballantyne (23), Pte. Dwyer (1,977), Pte. H. Jones, Pte. Lebeau (1,459), Pte. A. E. Stevenson, Pte. Waterhouse (1,233).

Thirteenth Battalion—Pte. Beard (2,323), Pte. Curry (4,684), Pte. Caruthers (24,599), Pte. Glad (24,594), Pte. Maloney (34,625), Pte. Scott (24,349), Pte. Scott (24,347), Pte. Wright (24,415). Seventh Battalion—Pte. Brison (16,343), Pte. Clarke (16,769), Pte. Elliott (16,845), Pte. C. C. Simes, Pte. Leacock (1,742), Pte. Milne (16,340), Pte. Sivel (16,356), Pte. Talbot (17,173), Pte. Weston (21,774).

Fourteenth Battalion—Pte. Connors (25,812). Fifteenth Battalion—Pte. Flannigan (27,066). Eleventh Battalion—Pte. Harvey (22,065). Fifth Battalion—Corp. King (12,556), Pte. Wajers (3,299). Battalion number not given—Pte. Birch (6,320).

MEETING OF MINING MEN POSTPONED INDEFINITELY

El Paso, Tex., Aug. 10.—General Hugh L. Scott, chief of staff of the United States army, has accomplished his mission to the border. At noon today the following statement was issued: "General Villa assured me during our interview that the proposed meeting of mining men will be postponed indefinitely. The foreign merchandise seized in Chihuahua last week will be restored. Violations of the law, however, will be prosecuted in the civil courts. My mission here is now accomplished."

SLOCAN STAR SOUGHT HIGHER PRICE LEVEL

Gained Full Favor of Buyers To-day, Finishing Strongly

Two small lots of American Marconi sold this morning at four and a half to four and five-eighths dollars. Trading in the Marconi issue, in other markets has brought the upturn in this issue and the advance has induced an amount of realising amongst those who have held the stock for some time. Slocan Star had the best action of the day and gained the full favor of buying interests, the finish price standing at 22 1/2. McGillivray was up one point, while Granby and Rambler each went back that much. The higher level in Standard Lead appeared a reflection of Slocan Star's strength, but there has been no falling off in the demand for this former issue.

CANADIAN PACIFIC ROSE QUICKLY TO-DAY

Went to 154 1/2, Notable Buying in Street of Leaders

(By F. W. Stevenson & Co.)

New York, Aug. 10.—The market became very strong from the start of trading and substantial advances were scored in almost all the issues.

Especially was the buying of rails noted, Canadian Pacific rising to 154 on declaration of the regular quarterly dividend, where a cut had been thought probable, and Union Pacific making a point to 134. On the upturn selling became rather conspicuous in view of the rapidity of the rise. The publication of the government grain report issued yesterday lent stability to feeling, indicating as it did the largest crop in the history of the country.

Let the Home of Your Dreams Come True

It's easy to wish for a home through a whole life, and never know the happiness it brings. Don't put off having the comforts you long for until it is too late to enjoy them. Most of us put off getting the things we chiefly desire because we can't get all at once. The steady, accumulative way is better, if we only bring ourselves to begin in time. Begin now, even one piece added yearly will give you, in a little while, a home full of charm. Expensive furniture is not necessary to make a pleasant home. Our furniture stock is excellent and carefully chosen. Some of the best comes in simple lines at small price. Come in first chance you have, and bring the lady of your choice with you. Let us help you to get in an easy way the furnishings you need for your ideal home.

Do Less Ironing

Don't waste time, fuel and energy trying to iron lace curtains when a Curtain Stretcher will do the work far better in a fraction of the time, with no risk of tearing, and you'll be perfectly sure your curtains will be square and hang straight.

CANNOT BREAK TIE ON JITNEY BY-LAW

City Council Allows By-law to Be Introduced, but Prevents Second Reading

"Every hen roost that is robbed, every clothes line that is stripped, is blamed on the jitney men," said Alderman Porter last evening, in seconding a resolution moved by Alderman Todd that the city council should lay the by-law to regulate jitney motors on the table indefinitely.

Alderman McNeill secured the introduction of the by-law, but failed to get it through the second reading, the council for the third time this year dividing equally. The position now is that the by-law remains part of the "unfinished business," and can be taken up at any time.

The vote stood: For the by-law's second reading, the mayor, Aldermen McNeill, McCandless, Dilworth and Okell; against, Aldermen Todd, Porter, Fullerton, Bell and Sargent.

Alderman McNeill, in introducing the by-law, stated that he was facing a prejudiced jury, in view of the Aldermen's objection to any regulations.

Alderman Bell took an initial objection that Alderman McNeill was seeking to railroad the by-law through, but withdrew the remark on pressure.

Alderman McNeill explained that his by-law was drawn up solely for the public good, that it was moved without reference to anybody or any interest, and to give legal force to the jitney association's own rules. Other cities had all regulated the traffic. The question of the security bond, or of the necessary guarantors, could be easily met. He explained the provisions of the by-law, which he stated were not onerous, and could be readily respected.

Alderman McCandless seconded.

Alderman Todd, in moving to give the by-law a six months' hold, which he subsequently amended to an indefinite postponement, opposed any regulation till the traffic righted itself.

He claimed that the jitneys should be regulated by the province, so that the rules could be general. None knew what the jitney development would be, and for his part, after carefully watching jitneys on Fort street, he had failed to see any evasions of the street regulations.

Alderman Okell did not see why the council should not regulate jitneys when they regulated almost everything else in the city.

Alderman McCandless stated that in seconding the motion, he did not wish to impose prohibitive rules on the traffic.

Alderman Fullerton pointed out that the jitney industry had been put in half recently, and the overcrowding practically ended when so many soldiers were moved from the Willows. The jitneys had been a benefactor to the city in forcing the street railway company to reduce its fares.

The division then resulted in a tie.

HERE NEXT MONTH

Young Australian League Boys En Route North Now.

There are 35 students of the Young Australian league on the tour which will bring them to British Columbia from the south on September 6. As in 1911, when they came to Victoria, Lieut. J. J. Simons will be in charge of the party.

The boys are official representatives of the Australian government, and as such were received by the state officials, in California, when visiting the Panama Pacific exposition.

The Australians form one unit of the Young Australian league, whose headquarters are in Perth, West Australia, and whose motto is "Education by Travel." All details were completed over a year ago for a tour of United States and Canada, and so perfected were the arrangements that the war interfered but little with the league's plans. On the declaration of war it was thought that the tour would be abandoned, but the demands of those who had arranged details in the United States were so insistent that the tour was carried out.

To put the cause of the allies before the American people as forcibly as possible, Lieut. J. J. Simons, the head of the organization, at once changed from one of general entertainment to one of patriotism. The lads now give two complete plays in which patriotism and the reason Britain is fighting to-day against German militarism are clearly brought out. These concerts have been given flattering press notices in the United States wherever they have been heard.

The members of the 101st Old Boys' club, who have charge of the arrangements for the Australians' entertainment in Vancouver, are now completing plans for the itinerary, which will include a trip to the Powell river pulp mills, another to Lillooet, a third to Lake Buntzen, and others to adjacent districts. The lads will be the guests of the P. G. E. R. at Whittell for four days. The Daughters of the Empire and Women's club are also making arrangements to have the tourists as their guests.

A story is told of a well known actor who invited a friend home to dine without having given adequate notice to his wife. At dinner the one bottle of wine the lady happened to have in the house was quickly consumed, and still the husband continued to press his guest to let him open another bottle. The guest, however, firmly refused. After his departure the lady reproached her husband. "How could you urge him so?" We were quite out of wine and yet the more I kicked you under the table the more you pressed him. But you didn't kick me," he said.

President and Faculty of B. C. University of Dr. Young's Joke

(By Victorian.)

Sir.—It is rumored in inner circles of the party that Hon. Dr. Young, minister of education, is keeping open the position of secretary of the provincial board of health in order to have a soft place for him to fall into when his political career comes to an end. Rumor also says that if the attorney-general had a determining voice in the matter the aforesaid career would terminate right promptly. If the premier were well advised, he would fall in line with the attorney-general in this matter and act accordingly.

The political career of this honorable gentleman has been something to excite the admiration of the gods. As minister of education his connection with the University of British Columbia might be epitomized as follows: No sooner had he become minister of education than he proclaimed aloud from the house tops the fact that he had set aside two million acres of ungranted land to be sold and the proceeds used as an endowment for the university. He could not have boasted more about this if the land had been his own and he were making the gift out of his own pocket.

His next feat was to appoint a royal commission, consisting of educational experts from the east, to come to this province and select a site for this great university of his. These experts came; they traveled the province from end to end for months, at the public expense, and finally selected Point Grey as the site for the doctor's great university.

Next he advertised among the architects from all over the world for competitive plans for the building in which to house this great institution, and he brought a great architect from England to tell him which of these plans he should select. Then he put a telescope to his eye and viewed the world from end to end to find a man big enough to fill the position of president of this gigantic institution. After a great deal of labor and search he finally fixed upon a Minnesota doctor of medicine as coming up to his ideal for the position. It must be that the honorable minister of education discovered more excellencies in this hitherto unknown Minnesota doctor than anyone else has been able to find, for he gave him a salary of \$10,000 a year, with an allowance of \$1,500 a year for house rent, which he has been busily engaged in drawing during the last year or two, while busily engaged in doing little else.

Again the doctor put the telescope to his eagle eye and sweeping the universe he discovered there more gentlemen whom he has made deans, one of the faculty of agriculture, one of the faculty of applied science and one of the faculty of forestry. These deans are receiving the neat little sum of \$7,500 each, with an allowance for house rent. So that the Minnesota doctor and his three deans are now costing the taxpayers of this province something over \$34,000 per year. And as yet there is no university nor anything that looks like a university, and no faculty except deans. Just what it will cost the taxpayers after the doctor has used his telescope a few more times and discovered a few more deans, can only be remotely conjectured.

That is why it is thought that Premier McBride should dump him into the board of health office at the earliest possible moment.

The latest information to hand tells us that the doctor has bought some twenty thousand volumes to form a library for his famous university. These books are reported to be so old as to be "out of print." They were bought in Europe by some Minnesota firm of booksellers, and are to be catalogued after the manner of the congressional library at Washington, D. C.

At least so says the Christian Science Monitor of Boston, Mass. Just what these books cost is not as yet stated. Probably they are intended for his deans to amuse themselves with when they have nothing else to do during the long winter evenings.

And now, as a fitting climax to this university fiasco, after the money of the entire people of British Columbia has been poured out so liberally in providing princely salaries for the Minnesota doctor and his three deans, these four gentlemen have got together and apparently advised the governors that the benefits of the institution, when it opens, are to be confined exclusively to those students who live in Vancouver, or who will take up their residence there. Victoria, it appears, according to the decision of these great men, is to be left in a more disadvantageous position than formerly. Instead of being benefited it is to be injured. These men are unwilling to allow Victoria the privilege of the affiliation hitherto enjoyed last foremost by Kasko and Penttinen and every other one-horse town will ask for the same privilege. In other words, they want the great benefits of their institution, which is costing the people of British Columbia so dearly, to be confined within as narrow a compass as possible. They evidently are not in British Columbia to cast pearls, etc.

In the meantime our unelected minister of education washes his hands of the whole business, and solemnly assures those Victoria Conservatives who have inquired of him about it that he has nothing to do with the university now; that the entire management of it has passed into the hands of the Vancouver people, presumably the Minnesota doctor and his three deans. After all the doctor's indulgence in hot air, sufficient to keep a fleet of German Zeppelins going for a week, over this great university of his which he was about to establish, this is what it amounts to; to the people of Victoria. What a fiasco! What a screaming farce! The whole business has turned out to be in the end a nothing.

Who wants to be a candidate in the Conservative interests in the city of Victoria in the coming election with Dr. Young still holding the portfolio of minister of education?

One special constable declares that he will never again argue with a woman fioster. He was trying to move her on from outside a wrecked pork shop when she turned on him—"What's a great big hulking fellow like you doing here? I've two lads myself. In the country? Well, for one thing, I am 55," replied the special. "Then you're old enough to be at home in bed instead of getting rheumatics out in the wet. Get home to bed, Pa."

The two British sailors had secured tickets to the dog show, and were gazing upon a Skye terrier, which had so much hair that it looked more like a woolen rug than a dog. "Which end is the head?" asked one. "Blowed if I know," was the reply. "But ere, I'll stick a pin in 'im, and you look which end barks."

TO APPEAL DECISION OF UNIVERSITY BOARD

City School Board Will Make Effort to Retain University Instruction

The city school board yesterday afternoon decided to approach the council of public instruction for a hearing on the threatened termination of university instruction in Victoria, and to invite the chairmen of the neighboring boards to co-operate in a delegation on the matter.

This action was reached after a brief explanation from Inspector Paul of the action of the board of governors of the British Columbia university in deciding to refuse permission for another year's work in Victoria on McGill college lines. He traced the circumstances, according to the case already set out in the Times, and laid stress on the situation in which it placed the staff of the college here, whereas the governors of the university were willing to recognize the Vancouver staff, and had taken them over for university appointments. The delegation from Victoria, he said, would have more earnestly pressed the claims of the staff if they had not trusted the governors to respect the promise to allow work to continue for at least another year.

Chairman Jay suggested an appeal to the council of public instruction, thus dealing with the government direct. The governors took the view that as the senate had not yet met, the B. C. University had no power to affiliate colleges.

Inspector Paul said the Royal Institution was holding a meeting this week, and probably some attempt should be made to secure the supplementary amounts from the institution before it ceased operation.

Mrs. Jenkins was satisfied that many of the pupils who had been receiving McGill instruction would be unable to proceed to Vancouver, if the government were upheld. Some of them would rather go direct to Montreal than to Vancouver.

Dr. Lewis Hall pointed out that at least 30 pupils would be unable at this time to proceed to Vancouver, and the notice came too late for them to enter normal school work. No accommodation for students was offered in Vancouver, if McGill work could not continue, then he would favor the board applying to Toronto, or some other university for affiliation. He then moved the motion to apply to the council of public instruction, which Mrs. Jenkins seconded. The resolution was carried unanimously.

In order to stimulate rifle practice in a Lancashire district, especially amongst the rising generation, a match was arranged in which the competitors must be over fourteen years and under seventeen years of age. The match was in progress, and there seemed to be not a few of the competitors who would never see another seventeenth birthday. The climax was reached, however, when a young enthusiast, seeing the excellent score of one of the competitors was making astonished the spectators by shouting at the top of his voice: "Go on, father; get another bull's-eye!"

Not just talcum powder for your baby

But—

the finest and purest that nature can supply and man can prepare. You use talcum powder in such generous quantities on the sensitive skin of your baby that the selection of a pure, safe powder is of great importance.

In Mennen's you have not only the original of all borated talcum powders, prepared by the most experienced makers of talcum powder in the world, but the one that has carried the endorsement of nurses and doctors ever since it was brought out. There is no talcum like Mennen's.

MENNEN'S BARATED TALCUM

A Talc for Milady

Mennen's Talcum is also sold in a variety of sizes and perfumes all made according to the Mennen formula, and are much appreciated by women of culture and refinement.

A Talcum for Men

There is also a Mennen talcum powder for men—delightful after shaving, natural tint, invisible, and protective. In distinctive cans.

Public Works Engineer.

BARBERS' BY-LAW

PASSES UNANIMOUSLY

Council Fixes August 28 as the Date of Operation; Civic Retrenchment

The by-law to regulate the hours of closing of barbers' shops was introduced into city council last evening. It came in response to a petition signed by forty-one white and nine Chinese barbers. Four Chinese barbers and five Japanese had not signed the petition. J. A. Shanks wrote, protesting against the passage of the by-law, urging as reasons that it would annihilate the smaller barbers, would increase the number of empty stores, and would put certain classes of citizens to inconvenience for lack of barber conveniences. The letter was filed.

The by-law becomes operative on August 28. The Civic Retrenchment association applied to the council for a conference with its executive with regard to further retrenchment in the city services. An appointment for Friday afternoon was given by the aldermen. Alderman McNeill thought the delegation should come prepared to show how the council could retrench in ways in which it had not already done. Alderman McNeill moved a resolution asking the city controller for a return upon the method of collecting fees in the city hall, in order to concentrate the work now carried on by several departments. He suggested plumbing, building and wiring fees should be paid direct to one department and then credited to the other departments. Alderman Porter foresaw some difficulties in putting the idea into practice. The return was ordered to be supplied.

Alderman McNeill also moved a motion to have the assessment roll of 1914 started to-day, and to have it returned to the council by January 10, 1915, in order to take advantage of the amendment of the statute. The resolution carried unanimously without debate. Alderman McCandless, chairman of the health committee, took occasion to rebuke the people who come to the council with ill-digested information. He made the remark in moving the adoption of the report answering the allegations of the Victoria Anti-Tuberculosis society that tuberculosis is on the increase in Victoria. Showing that the observations were groundless, he deprecated the complaints about milk and meat, etc., for which there should be no justification. The report dealing with the society's suggestion of compulsory fumigation, and other measures for the prevention of tuberculosis, set forth that at present all physicians are required to notify the health department of any cases coming under their observation; fumigating is done in all cases brought to the attention of the health officer who has power to compel it to be done if necessary, but no instance had yet occurred where any household had objected; in the case of infected houses being re-let without being fumigated, the committee considered that anyone knowing of such cases should deem it their duty to report the same to the health officer, as anyone letting an infected house be re-let to prosecution; to fumigate all vacant houses before they are re-let, whether infected or not, would be an expensive and unnecessary undertaking. The report also pointed out that the number of deaths in Victoria in 1914 from tuberculosis was much below the average for the past seven years.

MACHINE GUN FUNDS

Collectors Continue Activities in Behalf of Securing Efficiency of Fighting Units.

Another locally-opened machine gun fund is growing rapidly to appreciable proportions. This is the fund opened by the Clover Leaf league, an organization of ladies devoted to patriotic work at the present crisis. The money collected by members among their friends is to be devoted to the purchase of a quick-firing machine gun for the 6th Battalion, "Western Scots," now being organized here by Lieut.-Col. Lorne Ross, should be well patronized. The programme will begin at 8.15 sharp, and is to contain so many good numbers that everyone will have a pleasant evening's enjoyment. The event is being given under distinguished patronage, and the theatre will be specially decorated for the occasion. Among those who are taking part are Mrs. Roy Trapp, Mrs. John R. Gunn, Mrs. R. H. Popley, Mrs. Gideon Hicks, Miss Tilly, Messrs. R. Mackenzie, J. O. Brown, E. Petch, and J. O. Dunford. There will be numbers by the 50th Gordon Highlanders Pipe band, kindly lent for this occasion by courtesy of Major Forsythe, and the Empress Hotel orchestra, under Prof. Turner.

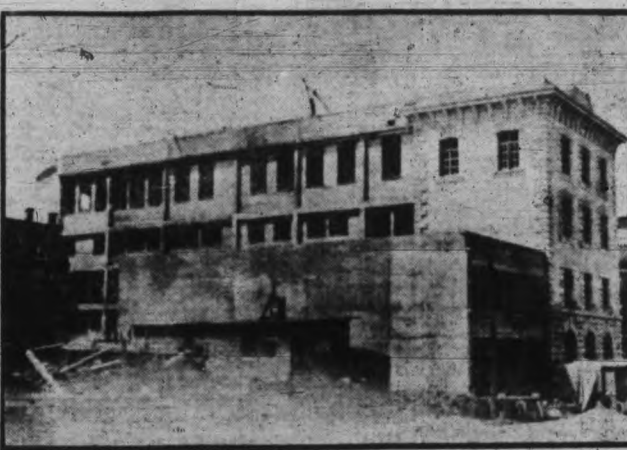

Persons liable to super-tax, Mr. Lloyd George tells us, now number 25,000. Might it not be worth while, with a view to increasing their numbers, to offer a bonus to all who join their ranks?—Punch.

Ferne's machine gun fund is mounting, and has now reached \$1,500. The Rossland miners' gun fund on Saturday had mounted to \$439; and Nelson had collected up to the same time the sum of \$2,243, with remittances still assured from other places in the district.

Cross-examining Counsel.—"Now, my lad, be very careful. You have stated that you saw the hayrick on fire, and that, five minutes afterwards, you saw 'Beefy' Saunders riding his bicycle along the Petersfield road. Now, there are two brothers Saunders, Harry and Alfred, aged 17 and 18 respectively. When you saw 'Beefy' Saunders, which of the brothers Saunders do you mean?" Witness: "I'm wiv a ghastly break from the off."—Punch.

H. B. "Imperial Lager Beer, quarts, 6 for 60c."

GENERAL CONTRACT IS COMPLETED

The city council was informed by the building inspector last evening that the general contract of C. W. Carkeek & Co. for the new city jail and police headquarters, has been finished. The sub-contractors will take some time yet.

OBJECTS TO PAYMENT FOR TENNIS GAMES

Use of Stadacona Park Courts is Questioned; Matter of Legacy

Two small matters caused a great deal of trouble last evening in city council. Before the minutes were adopted Alderman Dilworth rose on a question of privilege, and begged leave to answer a letter from the mayor with regard to Stadacona park.

He understood it was in the knowledge of the aldermen that a small charge was made for the use of the tennis courts at the park, a statement which was received with some surprise. The alderman claimed that to provide tennis facilities the city was put to some expense, which was not the case with other games played in the city parks.

Alderman McNeill opposed the idea of a charge being made at any city park, and thought that the principle of charging should have been brought before the council for approval.

Later in the proceedings, the chairman of the Home committee, Alderman Sargent, said that past experience with the chairman of the finance committee had shown that appropriations for the home had been lopped off without reference to the chairman of the individual committee.

Alderman McNeill justified his action by stating that the whole of the funds for civic buildings had been held up till the council met again to consider what work should be done this year. Alderman Sargent declared that a person who made a bequest intended it should be used for a specific object. As it is no longer possible to learn the exact intentions of the donor, the matter was left over.

Meanwhile the sum of \$250 was accepted from the executors of Mrs. Williams.

Tenders for printing the city by-laws were opened, and referred to a committee for a report. A letter was received from Mayor Thomson, expressing sincere thanks for Victoria's message of condolence to the citizens of Chicago on the occasion of the recent marine disaster, when the steamship Eastland foundered.

The members of the coalition cabinet had decided to pool their salaries with a view to their being divided equally. The sum, we learn, has been worked out in detail by Mr. McKenna. So much for those who declared that the new chancellor of the exchequer would be unable to cope with his duties.—Punch.

The officers of the league are Mrs. Munro, president (1634 Quadra street); Mrs. Gadsden, vice-president (1817 Quadra street); and Miss Croft, secretary (1635 Quadra street).

Victoria, Nanaimo and other points in the province are arranging entertainments in behalf of the machine gun fund. To-morrow evening the old Victoria theatre, Douglas street, will be reopened for the purpose, when a concert will be held with the specific object of raising a sum sufficient for a machine gun for the 6th Battalion, "Western Scots." Nanaimo in the next fortnight will hold a patriotic concert in Comox Road park in aid of their machine gun fund.

CAMERON GETS YEAR FOR HAVING GOODS

Court Tells Him He Has Added Perjury to His Other Offence

Oscar Cameron, who has been before the police magistrate several times during the last few days on remand upon a charge of being in possession of five gold stick-pins which were stolen from Commodore John Musgrave's yacht at the Cadboro bay anchorage, was to-day sent to jail for one year at hard labor.

It was the intention of City Prosecutor Harrison yesterday to lay a charge of contempt of court against Cameron as a result of his refusal to give the name of the supposed man whom he says gave him the pins to get valued, but he changed his mind. He explained to the court to-day that he did not think it would be well to do so, as it might only lead the man on to the commission of perjury. He was quite satisfied that the thief was Cameron himself, and if after a taste of jail Cameron was to give a name it would only be adding perjury to his other offences.

Magistrate Jay pointed out to the accused that it had been proved that the articles had been stolen, and that they were in his possession. The onus was on a person found with stolen property to prove that he had come by them honestly, and this he had failed to do. In stating that he had been handed them by a man whose name he knew, but refused to give, the court was of opinion that he was exaggerating his offence by perjuring himself.

TO ADDRESS ROTARY

Mrs. Joseph Fels Will Speak Thursday; Several Guests Invited to Lunch.

The eighty-eighth meeting of the Rotary club will be held on Thursday at the Empress hotel at 12.30 o'clock, and following lunch Mrs. Joseph Fels will speak to the club on "cultivation of vacant lands and reduction of the cost of living." To hear this speaker there have been invited a number of guests. The Rotary club some time ago had the vacant lot cultivation plan outlined by Rotarian Thomas Walker, who spoke at one of the club luncheons. He told of the progress then being made in this work in Victoria.

At the last lunch of the club a tobacco fund collection was made and \$2.75 collected. The secretary, Capt. Goodlake, is forwarding this to the Rotary club of London, to be expended on sixpenny packets of tobacco for the British Columbia men at the front.

There are two candidates for election.

A Midsummer Sale of Blankets That Should Attract Widespread Attention

It is none too early to turn your attention to your requirements in Blankets, especially when such an opportunity presents itself to save money as does this.

Within the past few months the price of wool has been steadily advancing, until at present it is almost one-third higher than normal prices. This lot of Blankets was bought from a wholesaler, who was feeling the pinch of business depression, for cash, and we are now selling them at prices that make a saving to you of nearly one-third on present prices. With such a saving it is for every thrifty woman to look to her blanket needs, and get all she requires as early as possible. They may be had in the following sizes and prices:

Size 64 in. x 84 in. Weight 7 lbs.	Price, pair	\$7.25
Size 60 in. x 80 in. Weight 6 lbs.	Price, pair	\$6.25
Size 56 in. x 76 in. Weight 5 lbs.	Price, pair	\$5.00
Size 68 in. x 86 in. Weight 8 lbs.	Price, pair	\$7.50
Size 64 in. x 81 in. Weight 6 lbs.	Price, pair	\$5.75
Size 68 in. x 88 in. Weight 8 lbs.	Price, pair	\$8.50
